### **ABOUT BANK MANDIRI**

AS A KEY STEP IN THE RESTRUCTURING AND RECAPITALIZATION OF THE INDONESIAN BANKING SECTOR.

ON 31 JULY 1999, THE LEGAL MERGER OF BANK BUMI DAYA,
BANK DAGANG NEGARA, BANK EKSPOR IMPOR INDONESIA AND
BANK PEMBANGUNAN INDONESIA INTO BANK MANDIRI WAS EFFECTED.
FOLLOWING THIS MERGER, BANK MANDIRI BECAME THE LARGEST BANK IN INDONESIA WITH AROUND 30% SHARE OF THE MARKET, MAKING IT A PILLAR OF INDONESIAN BANKING. RESTRUCTURING HAD BEEN UNDERTAKEN IN EACH OF THE FOUR LEGACY BANKS PRIOR TO THE LEGAL MERGER AND CONTINUED THROUGHOUT 1999. BANK MANDIRI HAD ALSO BEEN FULLY RECAPITALIZED BY DECEMBER 1999, AND BEGAN TO EARN PROFIT IN THE BEGINNING OF 2000.

IN LINE WITH THE RENEWED HOPE AND SPIRIT THAT ARE SWEEPING ACROSS INDONESIA FOR A BETTER FUTURE, THE MANAGEMENT AND STAFF OF BANK MANDIRI DEDICATE THEMSELVES TO MAKING BANK MANDIRI INTO A HIGHLY PROFESSIONAL, PREFERRED AND TRUSTWORTHY BANK.

### LEADING THE MARKET

FOLLOWING THE LEGAL MERGER OF BANK BUMI DAYA. BANK DAGANG NEGARA, BANK EKSPOR IMPOR INDONESIA. BANK PEMBANGUNAN INDONESIA ("THE LEGACY BANKS") INTO BANK MANDIRI IN JULY 1999, BANK MANDIRI HAS BECOME THE LEADING BANK IN INDONESIA WITH APPROXIMATELY 30% OF THE MARKET SHARE. The foundations on which Bank Mandiri will evolve into a sound and profitable bank have been laid down following an intense and complex restructuring program from October 1998 leading to the legal merger in July 1999. These foundations include a new management team; an effective organizational structure reflecting international best practice, good corporate governance and prudent banking. Full banking operations have also been in progress, including Credit Restructuring, Risk Management, Treasury, Business Development and Head Office Support.

In addition, Bank Mandiri has developed a blueprint for a more effective and efficient branch banking operations that have been reorganized in a hub-and-spoke concept.

A downsizing program was carried out, in which 6,991 personnel, representing 26.3% of Bank Mandiri total employees had chosen to join the Voluntary Separation Scheme (VSS) program as at year end 1999. At the same time a fair and objective selection and recruitment process insured that Bank Mandiri retained the best personnel which met the requirements of Bank Mandiri.

Through all this, Bank Mandiri is poised for growth beginning in the year 2000.

"FIRST FROM THE STARTING BLOCK"

## DEC 1998

## Appointment of NEW MANAGEMENT

In December 1998, the Government appointed new members of the Board of Commissioners and the Board of Directors of Bank Mandiri and the four Legacy Banks, comprising of career bankers from private and state-owned banks.

## MAR - APR 1999

## Integration of key banking operations

By this time, most of the functions of Corporate Banking, Treasury and Credit Risk Management of the four Legacy Banks have been integrated at Bank Mandiri.

## OCT 1998 $E_{ ext{STABLISHMENT OF}}$

BANK MANDIRI

Bank Mandiri was established on October 2, 1998, with paid-in capital consisting of the shares of the Legacy Banks held by the Government of Indonesia, and additional cash payment by the Government based on Government Regulation (PP) No. 75/98.

Bank Bumi Daya, Bank Dagang Negara, Bank Ekspor Impor Indonesia and Bank Pembangunan Indonesia became subsidiary companies of Bank Mandiri.

## FEB 1999

## Selection of Personnel & VSS Program

In February 1999, the four Legacy Banks announced a Voluntary Separation Scheme (VSS) program and, at the same time, Bank Mandiri outlined a fair, transparent and objective selection process to employees of the four Legacy Banks.

Employees responded positively to both offers which led to the ideal conditions for Bank Mandiri to work out its downsizing and personnel selection process effectively, without negative reactions from the employees or the general community.

# $P_{\text{ACE OF MERGER}}$

- Bank Mandiri took steps to expedite the legal merger by undertaking a general shareholders' meeting, public announcements and others.
- Bank Mandiri conducted roadshows in Hong Kong, Singapore and London, presenting its merger process to more than 210 international creditors.
- Bank Mandiri reduced the number of its overseas branches and completed the blueprint for the rationalization of its domestic branch network.

### **MERGER MILESTONES**

#### AUG 1999 Restructuring of LOAN ASSETS

Following the legal merger, Bank Mandiri intensified its loan restructuring efforts with debtors to improve the quality of its loan portfolios.

### **JUL 1999** Legal merger

- On July 31, 1999, Bank Bumi Daya, Bank Dagang Negara, Bank Ekspor Impor Indonesia and Bank Pembangunan Indonesia were legally merged into Bank Mandiri.
- Integration of information technology systems was accomplished for Treasury as well as the determination of application system for Retail Banking and Delivery System.
- Rearrangement of the Bank's management in the form of Executive Management.
- Bank Mandiri introduced a new corporate identity which was uniformly applied throughout its branch network.
- Integration of Risk Management, Corporate Banking and Treasury.
- Integration of reporting to the financial authorities.

#### OCT 1999 First tranche RECAPITALIZATION

- · Bank Mandiri received IDR 103 trillion of government bonds on its first tranche recapitalization.
- · Initial phase of branch restructuring commenced.
- Integration of operations on the basis of the hub-andspoke concept was initially implemented at the Jatinegara branch.
- Bank Mandiri formed the team for branch roll-out.

#### DEC 1999 Ending the year ON POSITIVE CAR

- · Bank Mandiri received IDR 75 trillion of government bonds on its second and final tranche of recapitalization for a total of IDR 178 trillion.
- · At year's end, Bank Mandiri had a total of IDR 44.0 trillion in outstanding loans, IDR 148.0 trillion in third party deposits and IDR 18.9 trillion in restructured loans.
- Bank Mandiri covered its Net Open Position using hedge bonds issued by the Government.
- Bank Mandiri improved its liquidity through the forward purchase of Government bonds.

#### **YEAR 2000** Booking Profit IN FIRST QUARTER 2000

- · Bank Mandiri began the vear 2000 on a solid growth foundation, achieving consolidated net income of IDR 461 billion in the first quarter of the year.
- Going forward, Bank Mandiri expects to achieve a healthy growth.

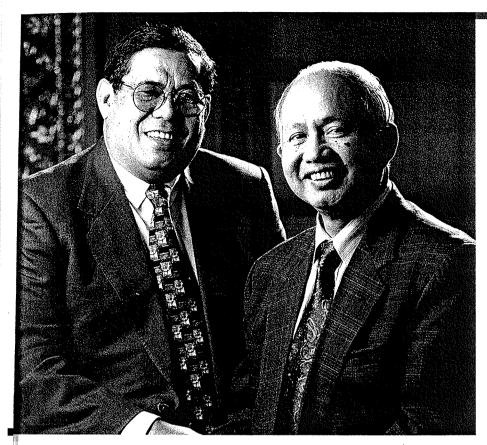

# A MESSAGE FROM THE CHAIRMAN AND THE PRESIDENT DIRECTOR

In 1999, we began the year determined to achieve the legal merger of our four Legacy Banks into Bank Mandiri by June of the year, a full year ahead of the mandate of the Government of Indonesia.

We achieved our target on the 31st of July 1999, establishing Bank Mandiri as the largest Bank in Indonesia today.

Before and after the legal merger, the process of integration among the four banks continued at an aggressive pace. By year's end, Bank Mandiri had virtually completed its personnel selection and recruitment process, introduced a new brand identity, embraced new vision and mission goals, developed compliance standards for good corporate governance and streamlined its branch network to a more effective and manageable number. More importantly, we have made significant progress in the restructuring of our assets that was the prerequisite for our recapitalization by the Government of Indonesia.

The mandate was for Bank Mandiri to first restructure most of the assets of the four Legacy Banks before the Government would undertake the recapitalization of the Bank. In 1999, we met this condition by restructuring over Rp 18.9 trillion of non-performing loans and transferring Rp 76.32 trillion of bad debts to the Indonesian Bank Restructuring Agency (IBRA) at zero value after full provisioning.

ROBBY DJOHAN PRESIDENT DIRECTOR

BINHADI CHAIRMAN

In the recapitalization of Bank Mandiri, the Government issued Rp 103 trillion of bonds in October 1999. This was followed with an additional Rp 75 trillion of bonds in December 1999 representing the second and final tranche of our recapitalization.

The recapitalization of Bank Mandiri raised our capital adequacy ratio to 12.02% as at year-end 1999 on the strength of our Tier-II capital which was raised as a result of the recapitalization.

Meanwhile, our restructured earning assets have provided us with an adequate revenue base to resume our growth. This was evident from our first quarter 2000 results which showed a net profit of Rp 461 billion. We expect our financial results to improve even more for the rest of 2000, as we continue to make progress in our restructuring, integration, consolidation, special assets management and business development.

It is important to note that our positive results were not due to our recapitalization or assets restructuring alone. These results were largely the outcome of our new vision, and our new approach to banking. Bank Mandiri continues to be transformed into a more dynamic. market-driven organization that is equipped to compete globally. We are raising the level and quality of our services to meet the standards of international banking.

Through these measures, and our successful undertaking of an extremely complex merger process, Bank Mandiri became the first recapitalized bank in Indonesia to post a substantial net profit going into the year 2000.

Bank Mandiri was quick to move from the starting block, securing an early lead in the market.

With a total assets of Rp 217.27 trillion as at March 31, 2000, Bank Mandiri is by far the largest bank in Indonesia today, serving our customers from more than 600 branch offices across the country.

#### A MESSAGE FROM THE CHAIRMAN AND THE PRESIDENT DIRECTOR

Recapitalization, loans restructuring and a new corporate culture have enabled Bank Mandiri to achieve a substantial profit in the first quarter of 2000.

We have taken every efforts to ensure that the merging of Bank Bumi Daya, Bank Dagang Negara, Bank Ekspor Impor Indonesia and Bank Pembangunan Indonesia into Bank Mandiri is carried out smoothly and successfully.

To highlight our progress, we have also presented our financial results up to the first quarter of 2000 in this annual report.

We wish to thank all those who have helped us through the merger, and all of our employees for their support and commitment to the progress of Bank Mandiri. Together we have helped shape the future of banking in Indonesia that is Bank Mandiri, "The Trusted and Preferred Bank".

Jakarta, May 2000

BINHADI CHAIRMAN ROBBY DJOHAN
PRESIDENT DIRECTOR

## AN ACTIVE SUPERVISION

The founding of Bank Mandiri has strategic implications to the continuity of the Indonesian banking sector which has suffered from a lack of trust ever since the Asian financial crisis began in 1997. Should efforts to merge the four Legacy Banks into Bank Mandiri fail, one can imagine the repercussions that such a failure may have on the bank restructuring efforts that are currently undertaken by the Government of Indonesia. As such, Bank Mandiri has to succeed almost at all cost.

Fully aware of this condition, the Board of Commissioners of Bank Mandiri, as proxy of the Government which holds 100% stake in the Bank has made its intention very clear from the start. The Board of Commissioners will play an active supervision role over the management and development of Bank Mandiri. In their capacity as advisors, members of the Board of Commissioners are also present in key management meetings and day-to-day activities that involved the merger. The Board of Commissioners itself convenes regularly at least once a week to consider or approve key management decisions.

During the initial formation of Bank Mandiri, the Board was actively involved in setting up Bank Mandiri from the merger of the four Legacy Banks. One of the most complex and time-consuming undertakings in this process at the time was the restructuring of non-performing loans of the four Legacy Banks.

In addition to credit restructuring, the Board of Commissioners also paid close attention to other critical issues. Two such issues were human resources and information technology. This is in line with both the vision and

Members of the Board of Commissioners, Secretary of the Board of Commissioners and the Audit Committee

From left to right:

Seated: Binhadi, Soedarjono Standing: Zulkifli Djaelani, Sabana Kartasasmita, Soejatna Soenoesoebrata, Gatot Mardiwasisto, Markus Parmadi.

mission of Bank Mandiri which aims to be the 'Trusted and Preferred Bank' with a service quality of world-class standard. The Board of Commissioners gave recommendations on the development of human resources and training program which are now carried out at Bank Mandiri in depth, in addition to efforts of instilling work ethics and discipline among employees. This is achieved among other things through the issuance of an employee manual book which provided the guidelines on personnel codes and conducts at Bank Mandiri.

In information technology, Bank Mandiri is faced with the considerable challenge of integrating nine different information systems of the four Legacy Banks into a single integrated system. This is currently being undertaken with best efforts, the process of which will be phased in gradually towards completion by the year 2002.

Another key area of interest of the Board of Commissioners is the assignment of the Audit Committee which, together with the Compliance Directorate, are

responsible for ensuring that the management and operations of Bank Mandiri are fully in line with the Bank's Articles of Association as well as its standard operating policy and procedure. In addition, the Board of Commissioners ensures that the Audit Committee performs credibly to improve the general quality of internal audits within Bank Mandiri; that these audits are carried out reliably in all critical areas. In 1999, Bank Mandiri received an ISO 9000 certificate for its internal audit process, testifying to Bank Mandiri's comprehensive efforts at internal audits.

## AN INTERVIEW WITH THE MANAGEMENT

The legal merger of the four Legacy Banks into Bank Mandiri took place on July 31, 1999, nine months after the founding of Bank Mandiri in October 1998. This was well ahead of the schedule stated in the Letter of Intent of the Government of Indonesia to the International Monetary Fund which gave a time table of one-and-a-half year for the Bank Mandiri merger.

#### Q: Why was the legal merger moved forward?

A: We feel that once we have established a legal basis for our merger, then everything else would follow or fall in place more quickly

than we would otherwise have achieved. It must be remembered that no merger of this size and scope had ever taken place anywhere in the world, and under extremely stressful conditions that were brought by the virtual collapse of the Indonesian economy due to the Asian financial crisis. A lot of people were understandably confused and simply terrified of the prospects of change. The Management feels that it will be in the best interest of Bank Mandiri and the Government of Indonesia as our shareholder to move our merger schedule forward.

#### Q: Was integration achieved at the time of the legal merger?

A: The legal merger gave us the legal platform to move ahead with our merger process more quickly and at times much more conveniently. But we think that the post-merger integration itself will probably take another two to three years to complete.

Nevertheless, we are encouraged by the pace of our progress. At the time of our legal merger, we have achieved 100% integration in our Corporate Banking, Treasury and Credit Risk Management. We are well ahead with our integration in other areas including Technology,

Branch Banking, Accounting and Financial Controlling and Back Office Operations. We will likely need considerable more time for the integration of our corporate culture, although we are confident that Bank Mandiri will exude its own corporate culture in due time.

Q: How does your culture differ from those of the four Legacy Banks?

A: To begin with, we have to be more market driven, more profit oriented, more responsive to customer needs, and more innovative in our business

approach if we are to compete successfully against the performance of leading international banks in the Indonesian market. This was not always the case with the four Legacy Banks which has grown accustomed to being "agent of development" for state projects as opposed to being a purely market oriented franchise. Bank Mandiri has to be different from its four Legacy Banks, because it is what the customer and the market expect of us today and in the future.

#### Q: How is Bank Mandiri adapting to this new culture?

A: A lot of people, including former employees and customers of the four Legacy Banks who are now with Bank Mandiri, will tell you that Bank Mandiri is different from any of the four Legacy Banks. For instance, we are taking our business and services to our customers. The Bank's Management are doing roadshows in all provinces throughout Indonesia, talking with branch personnels and meeting face to face with regional customers.

We were told by some of these customers that they had been clients of one or more of Bank Mandiri's Legacy Banks for as long as they were in business but had never received the kind of attention that they are now enjoying from Bank Mandiri. Needless to say, these customers are more responsive to the new ways of Bank Mandiri.

Q: How are employees of Bank Mandiri taking these changes?

A: They are just as excited. And remember that our present employees of 16,673 personnel had been short-listed and selected from the 26,597 personnel of the Legacy Banks. Because we have a clear goal, we knew what to look for in our potential candidates. We simply short-listed those who were most familiar with the market orientation concept and, after a series of proficiency test, selected the best candidates. Essentially, this means that Bank Mandiri has selected the appropriate personnel in order for us to achieve our goals. From our personnel selection process we are assured that our employees have a keen understanding of the market principles. For the past three decades or more, they had had few opportunities to exercise these

principles due to the prevailing environment at the time. Today, they are responding positively to changes in their environment.

Q: Besides corporate culture and behavioral change, what were the other major challenges of this merger?

A: Our creditors immediately come to mind. Altogether, the four Legacy Banks owed over USD 2.7 billion to international creditors. Many of these obligations require prior consent from creditors for either a change in direct ownership by the Government in the four respective Legacy Banks, the sale and transfer of assets, or mergers. Thus, any refusal from these creditors to give consent could, in effect, block any assets transfer from the Legacy Banks to Bank Mandiri, delay the legal merger itself indefinitely, or lead to foreign litigation with adverse international publicity. It was therefore imperative for us to convince these creditors that their claims are on a firmer foundation with Bank Mandiri than they would be with one or any of the Legacy Banks. Furthermore, creditors were assured that existing guarantees will remain in place and that Bank Mandiri will be among the leaders in Indonesian banking, capable of

competing against the best private banks and international banks in Indonesia.

Q: Were they convinced?

A: We distributed circulars to all off-shore creditors, describing in details the mission and strategic plans of Bank Mandiri as well as the formation of a professional organization capable of achieving its goals. We also projected Bank Mandiri's ability to meet its future funding needs on the basis of high level treasury function as well as the recapitalization commitments from the IMF and World Bank, and the fact that creditors were guaranteed by the state. Complementing the circular, telephone lines were dedicated at Bank Mandiri to fill queries from creditors regarding our merger. These phones were answered by the Deutsche Bank team as our main advisor to the merger as well as our own merger team. In April and May 1999, the team responded to hundreds of queries and requests for informations. Then in May we conducted roadshows in Hong Kong, Singapore and London. More than 210 creditors attended these roadshows. Although these attendances represented approximately 89% of our total obligations and we received

official consent from 78% of identified creditors, there have been no objections to our merger to date. We are pleased that the responses have unanimously supported the merger process of Bank Mandiri.

## Q: How has Bank Mandirl been recapitalized since the legal merger?

A: We were recapitalized in full

when the Government of Indonesia

issued IDR 178 trillion in Government bonds in two tranches in October and December 1999. This raised our CAR level (for Tier-I and Tier-II capital) to above the 8% minimum requirement of Bank Indonesia. However, let us underline one important point about this recapitalization. Recapitalization alone will not turn a bad bank into a good one. But in the case of Bank Mandiri, our recapitalization was made on the conditions that we were able to first restructure and consolidate our earning assets, as well as key areas of operations including headand branch-office integration and rationalization of Legacy Banks personnel. These were the conditions that were imposed by the Government of Indonesia, which we had to meet if we were to be recapitalized. Therefore, since our recapitalization was made after we had restructured a

significant amount of our earning assets, we are poised for profitable growth from our restructured assets as much as from our interest income on the government bonds. For instance, from our restructured assets alone, we expect to earn interest income which will grow from IDR 2.7 trillion in 1999 to approximately IDR 7.1 trillion by the year 2001.

## Q: How will Bank Mandiri perform, going forward?

A: For one thing our credit restructuring is proceeding rapidly; whereas collections are in line with our projections. As at year 1999, we had approximately IDR 24.6 trillion worth of credit restructuring which were either completed (57.9%), signed MoU's but pending implementation (19.2%) or in final stages of negotiations (23.2%). From these restructuring and future new lending, we expect to post robust growth on our "good book" loans from IDR 44.0 trillion in 1999 to IDR 49.3 trillion in 2000 and IDR 57.5 trillion in 2001. At the same time, our rationalized and fully redesigned branch banking will create a strong platform for Bank Mandiri to capture the retail and middle market banking segments in Indonesia, which show the most potential growth

prospects in the near-to medium-term future. While an integrated information technology platform will lead to substantial gains in operating efficiency.

# Q: What are the immediate challenge currently faced by Bank Mandiri?

A: As a result of the integration of the four Legacy Banks, Bank Mandiri faces certain compliance issues with regards to net open position, open items and the legal lending limit. To resolve these issues, hedge bonds were issued together with our recapitalization. Through these hedge bonds, we have mapped out a clear strategy on resolving these issues within the next two years. We expect to resolve our net open position by gradually replacing our hedge bonds between March 2000 and December 2001. Meanwhile, since September 1999,

a task force of Bank Mandiri and Ernst and Young representatives has been assigned to resolve the open items originating from the four Legacy Banks. And finally, we are in discussion with certain debtors which have compromised our legal lending limit to resolve this issue through debt conversions, syndications, loan repayments, divestments and loan restructuring by year-end 2001.

## **BANK MANDIRI SINCE AUGUST 1, 1999**

Since the legal merger of Bank Mandiri, the post merger integration has progressed more rapidly. An increased sense of purpose, greater cooperation and common goals have sharpened the focus of integration and consolidation for Bank Mandiri. As most of the required staffs have been increasingly filled, Bank Mandiri is moving forward with increasing pace, clearing all hurdles with tangible results.

Our progress has been particularly significant in the restructuring of nonperforming assets and the

development of our core banking businesses. Through these efforts, Bank Mandiri has gained tremendous delivery capabilities to the consumer banking segment. The Bank is in the process of recovering its corporate loan assets, and has retained its strong banking relationship with the government and public business sectors. With these advantages, Bank Mandiri has achieved a net profit of IDR 461 billion for first quarter 2000, which we expect to grow exponentially in the years to come.

"CLEARING THE HURDLES"

# COMPLIANCE AND CORPORATE GOVERNANCE

I Wayan Pugeg, Compliance Director, is responsible for the policy formulation and implementation of compliance at Bank Mandiri.

The Compliance Director and his team, working closely with international consultants, have formulated the key policies and procedures covering a broad range of banking operations and risk management areas that meet with international best practice. These policies and guidelines are constantly reviewed and refined to reflect the operational environment.

"Compliance is a recent development in Indonesian banking, and the introduction of a new concept or behavioral standard will always take some time to evolve. Compliance, after all, is as much a cultural issue as it is a practical undertaking," says I Wayan Pugeg.

Nevertheless, I Wayan Pugeg, a career banker from a state-owned bank who understands the prevailing culture of Bank Mandiri, also expresses his belief that compliance can be successfully instilled in the hearts and minds of Bank Mandiri employees. Bank Mandiri was born as part of the banking sector reform in Indonesia. The Asian financial crisis of 1997 had fully exposed the frailties of this banking sector. Although much of the damage was mainly due to the virtual collapse of the Indonesian Rupiah. most of the troubled banks in Indonesia, including the four Legacy Banks of Bank Mandiri, were not fully in compliance with the commonly accepted norms and standards of prudential banking. Legal lending limit, net open position, lack of risk awareness, over exposure to a particular business sector, and disintegrated operations were among the key weaknesses of our national banking system in the past.

A New Era in Banking. A fresh hope for a new era in Indonesian banking has emerged from the broad and fundamental changes that are now being applied to the banking sector. Among other developments, these changes include the requirement of Bank Indonesia for all senior management members of banks to undergo a fit and proper test; the obligations of all key directors of a bank to commit themselves to a legal document that signifies their personal, moral, and financial responsibility; and the new regulations of Bank Indonesia on compliance.

Compliance. In line with this regulation, Bank Mandiri has appointed a Compliance Director who is independent of and detached from all banking operational responsibilities. The Compliance Director is approved by Bank Indonesia and reports directly to the Central Bank on issues regarding compliance.

Compliance at Bank Mandiri begins with the Bank's vision and mission goals which among other things represent the core faith and commitments of Bank Mandiri employees to professionalism, integrity and excellence.

Policies and Procedures. At the operational level, these commitments are facilitated by a clear set of standard operating policies and procedures covering all banking operations.

Corporate Governance. The Charter on Good Corporate Governance at Bank Mandiri sets forth the principles on transparency, full disclosure, independency and accountability.

Bank Management. The management of Bank Mandiri is carried out by the Board of Directors, while management supervision is undertaken by the Board of Commissioners.

Members of the Board of Directors and the Board of Commissioners are appointed by the General Meeting of Shareholders as set forth in the Bank's Articles of Association, and have to comply with the following criteria:

- · integrity and competency,
- · able to act lawfully, and have never been declared insolvent.
- · have never been part of any board of commissioners or directors of a company that have been declared bankrupt.
- have never been involved in a criminal case.

In the execution of its duties, the Board of Commissioners sets up the Audit Committee, the Nominating Committee and the Compensation Committee.

Audit Committee. The Audit Committee is set up by and responsible to the Board of Commissioners. The Committee assists the Board of Commissioners in the effective execution of its oversight duties. The Committee comprises three members, one of whom is a member of the Board of Commissioners. The two other members were appointed from outside of the Bank, unrelated to the management or shareholder of Bank Mandiri.

The Audit Committee is chaired by Soedarjono, with Soejatna Soenoesoebrata and Zulkifli Djaelani as members, all of whom are fully knowledgeable and experienced in the oversight as well as the operations of a banking institution.

Nominating Committee. This Committee assists the Board of Commissioners in selecting the members of the Executive Management Board of Bank Mandiri.

Compensation Committee. This
Committee assists the Board of
Commissioners in evaluating the
performance of the Executive
Management, and in making
recommendations to the Board of
Commissioners with regard to the
remuneration, benefits and other
compensation for the Executive
Management, to be brought up at the
General Meeting of Shareholders.

The Board of Directors and Executive Management. The Board of Directors is appointed by the General Meeting of Shareholders, and consists of persons with suitable experience and capabilities in banking. In discharging its duties, the Board of Directors appoints the Coordinating Executive Vice President, the Executive Vice President and Senior Vice President, which, together with the Board of Directors, comprise the Executive Management of Bank Mandiri.

Implementation of Corporate
Governance. Bank Mandiri has
various control mechanism with
regards to the implementation of the
principles of good corporate
governance, which can be divided
into:

(i) Control by the Board of Commissioners and the Executive Management, in accordance with their respective functions, duties and authorities.

- (ii) Horizontal control through the clear segregation of duties and functions of business development, risk management, operations and accounting. In this regard, the management of risk is carried out by the Risk Management Committee, assisted by the Market Risk Management Committee, the Asset-Liability Committee, and the Credit Risk Management Committee. The management of credit risk is carried out by the separate units of Credit Risk Management (CRM) and Business Unit, incorporating the socalled 'four-eye', principle.
- (iii) Vertical control is done by each superior with respect to his/her subordinates, along with appropriate and continuous corrective and guidance measures.
- (iv) Independent control by units outside of line management, namely the Internal Audit Group, External Auditors, and the Compliance Director. To ensure complete impartiality, members of the Board of Commissioners and the Board of Directors shall not be related by birth or marriage to any other member.

Code of Conduct. As part of the implementation of the principles of good corporate governance, Bank Mandiri has established a Code of Conduct as a guide for all of the Bank's employees at all levels in their relationships with customers, business partners and working colleagues. Among others, the Code of Conduct regulates conflict of interest, abuse of authority and insider transactions.

Annual Disclosure. All employees of Bank Mandiri is required to submit an annual Statement of Disclosure pertaining to their adherence to the Code of Conduct during the period covered. In the event of a breach or non-compliance of the Code, appropriate punitive actions will be brought against the offender.

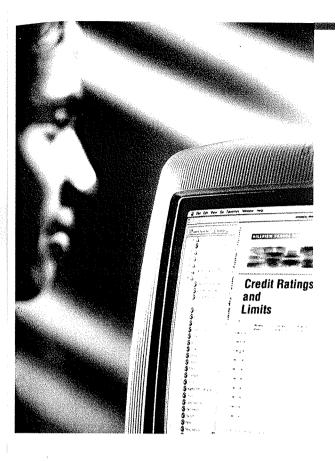

## RISK MANAGEMENT

Agus Martowardojo, Managing Director, is responsible for Credit Risk Management and Credit Restructuring before and after the legal merger of Bank Mandiri. His department has been instrumental in restructuring 294 credit accounts worth more than IDR 18.91 trillion, and is in the process of negotiating 302 additional credit accounts amounting to IDR 17.8 trillion.

Agus Martowardojo attributes this success to the active approach that he and his team brings to the loan workouts.

" We are taking the case for restructuring to our debtors, emphasizing the benefits of early restructuring in their interests as much as ours," he says. He explains further that such an approach is unique to a state bank and customers are responding positively to Bank Mandiri's new initiatives. A career banker in the private banking sector, Agus Martowardojo understands the value of taking the business to the customers.

In the management reorganization of Bank Mandiri, as of February 15, 2000, Agus Martowardojo has been reassigned as the Managing Director and Coordinator of Retail Banking and Operations. His responsibilities include the coordination of branch offices throughout Indonesia, product development for retail banking, information technology, operations and branch office integration.

Credit Risk Management (CRM) and Credit Restructuring represent two key elements in the consolidation of the loan assets of the four Legacy Banks into Bank Mandiri. In credit risk management, the aim was to establish a centralized, uniformed and independent credit risk management role. At the same time, a strong credit culture of risk awareness was encouraged through increased credit risk exposures reporting across products, business areas, and operating units as well as regions within the Bank. We then formed five distinct CRM units for each of our major business areas and operating units comprising CRM Corporate and Commercial, CRM Financial Institution, CRM Retail, CRM Credit Risk Review and CRM Support Function.

#### Cultivating a Credit Culture.

A major accomplishment of the Risk Management Group in 1999 was the creation and cultivation of a Mandiri Credit Culture. This credit culture aims that credit risks are identified, understood, properly assessed and effectively communicated across Bank Mandiri. In addition to our credit culture, we have also formulated a credit policy which emphasizes on portfolio quality, credit extensions on the basis of sound business plan, diversification of credit risk and monitoring risk vis-a-vis reward. This policy also includes empowering our relationship managers to be primary responsible for identifying problem exposure as our first line of defense. With the Credit Policy and Guidelines providing much of the framework for our Credit Risk Management, Bank Mandiri can now fully assess risks that involve markets, products, clients and business segments; posses a comprehensive credit risk portfolio management and strategy; and has the means to delegate credit authority and carry out credit approval processes and procedures more effectively. Bank Mandiri is also able to manage the risk profiles of sound corporate and commercial clients using credit reporting systems and credit authority structures, risk scoring sheets and spreadsheets for financial statement analyses. In addition, we manage the risk profiles of our relationship with banks and other financial institutions using industry specific analytical tools. As for our CRM Retail, we have developed specific guidelines and procedures for retail banking credit processings, which include the credit

reports for individuals and small business customers, retail analysis forms and related check lists.

Credit Workouts. Throughout 1999. Bank Mandiri consolidated and restructured the credit portfolios of the four Legacy Banks. In March 1999, the four Legacy Banks transferred 806 loan asset accounts in excess of IDR 5 billion of category-5 loans with a total value of IDR 76.32 trillion to IBRA. From Bank Mandiri's point of interest, credit restructuring is undertaken with the aim to optimize the recovery potential of bad loans by eliminating additional credit risk and minimizing cost. Credit restructuring is reserved for highly cooperative debtors and should benefit both the Bank and debtor.

Our credit restructuring is based on a realistic scenario in which the net present value of future cash flows after restructuring is clearly higher than the value that the Bank would receive from a liquidation proceedings.

### **OPERATIONS**

Kodradi, Executive Vice President, is in charge of Operations with key responsibilities in Human Resources/ General Affairs, Information Technology and Coordination of Legacy Banks. These units, together with Training, Head Office Operations and the integration of Information Technology represent key components of the merger process.

"A critical aspect of Bank Mandiri's continuing success in the future lies in our ability to train, develop and imbue our human resources with the new corporate culture of Bank Mandiri which is market-driven and profit oriented on the strength of personal creativity and initiatives," says Kodradi. He explains further that this is an extremely tall order given the mind set of state banks in Indonesia in the past. However, with the right kind of environment, and the increasing role of Information Technology in promoting fast, effective, open and reliable banking operations, he is confident that change can and will take place among Bank Mandiri employees.

A career banker from one of the Legacy Banks, Kodradi has adequate knowledge of the dynamics of a state-owned bank to institute change among its rank and files.

As part of Bank Mandiri's management reorganization, as of February 15, 2000, he has been reassigned to serve as the Risk Management and Support Coordinator, which include Human Resources and Training.

Operations oversees Human Resources/General Affairs, Information Technology and coordination with the four Legacy Banks. In 1999, much of our attention was devoted to the selection and recruitment process of the Bank Mandiri personnel as well as the establishment of a human resources strategy, going forward.

Voluntary Separation Scheme (VSS)

Program. With the help of Hay Management consultant, Bank Mandiri has selected 16,673 personnel from a total of 26,597 employees of the four Legacy Banks. A Voluntary Separation Scheme program had been designed that met

the interest of all key stakeholders of the Bank, was acceptable to the business community and the general community at large, was competitive with similar packages of other banks and state-owned enterprises, and sufficiently attractive to induce a substantial number of employees to accept. In February 1999, this VSS program was implemented alongside the selection process for the Bank Mandiri personnel.

Fair and Transparent. This selection was seen as a fair and transparent process that put candidates through rigorous screening, testing and interviewing. The process starts with the job opening announcement to collection of applications, aptitude test, know-how interview, competency interview and the final interview leading to selection. As expected, not everyone applied for selection. Of the 26,597 employees of the four Legacy Banks, a total of 13,690 had been selected with 2,983 personnel still undergoing selection. Thus, both our VSS program and selection process not only ensured that the most suitable candidates are selected for Bank Mandiri, but that there would also be room for Bank Mandiri to recruit a fresh batch of competent personnel.

Operations. Operations activities in 1999 mainly involved the integration of head office operations involving Card Center, Trade Finance, Remittance and Teletransfer, Treasury and Global Market Operations and the supporting functions which include Legal, Communications, Corporate Planning (Strategic & Business Performance) and General Affairs; all of which were achieved in 1999.

Information Technology. Bank Mandiri is developing a common integrated platform for the use of information technology in Credit Risk Management, Retail Banking and its delivery systems, Wholesale Banking, Back Office Systems, Management Information Systems, General Services and Human Resources.

We expect to complete our single information technology platform for Bank Mandiri to cover all banking operations by the first quarter of 2001.

## DEVELOPING OUR BUSINESS

Peter B. Stok, Executive Vice
President, is responsible for the
business development of Bank
Mandiri in the pre-and-post merger
period. The portfolios involve the
transfer of performing loans in
corporate banking from the Legacy
Banks, restructuring commercial
banking loans, developing the retail
banking segment in line with Bank
Mandiri's new emphasis on this
market segment, and maintaining
Bank Mandiri's strong relationship
banking with the government sector.

Peter B. Stok sees the need for Bank Mandiri to be more aggressive in its marketing efforts, more competitive in product differentiation and pricing, and more responsive to changing customer needs. "We have one of the largest banking networks in the country today with over 658 service outlets, and as many ATMs, and a market share of approximately 30% of the banking business in Indonesia today. Just think of the sheer potential of these resources if we were to improve our delivery significantly in terms of responsiveness, reliability, speed and so forth," he says.

A career banker from the private banking sector, Peter B. Stok believes that these goals are within reach of Bank Mandiri in the next year or two.

In the management reorganization of Bank Mandiri, as of February 15, 2000, Peter B. Stok has been reassigned to serve as the Corporate Banking and Restructuring Coordinator.

The business development of Bank Mandiri includes retail banking, corporate banking, government relationship, commercial banking and product and business development. However, Bank Mandiri has focused more on developing a distinctive retail banking strategy.

Focus on Retail Banking. Our goal is to become a leading Indonesian retail bank. We have conducted extensive research to pinpoint current needs in the retail banking market. Bank Mandiri should focus on middle class individual customers, offering a specific range of good value products, unequaled services and convenience through an extensive branch and ATM network.

Branch Integration. A critical element of our retail banking strategy is the integration of 740 branch offices of the four Legacy Banks. This will be scaled down to 658 branches of Bank Mandiri, utilizing the more efficient hub-and-spoke concept. While most bank branches today operate their own back office and administration, Bank Mandiri's network will be organized in "hubs" and "spokes", where hubs will contain back office functions and spokes will focus solely on customer services. We are targeting 55 hubs to serve 529 spokes branches, in addition to 10 regional offices and 74 cashoutlets. Our hub-and-spoke structure will achieve higher efficiency through greater economies of scale.

Branch Rationalization. The key objectives of branch rationalization which continues to progress to date are (i) to form an effective branch banking network, and (ii) to maintain and improve the delivery and quality of branch banking services to customers. Branch rationalization has been carried out by closing, combining and redesigning certain branch offices, all of which is expected to be completed by the end of the year 2000. As at year-end 1999, a total of 82 branch offices had been closed.

Meanwhile, the redesigning of branch offices will comprise six aspects, namely: (i) conversion of information technology to a single platform, (ii) hub-and-spoke branch network, (iii) personnel selection, (iv) standard operating procedures, (v) product integration, and, (vi) branch identity and uniformity.

Branch rationalization is to be implemented with a gradual roll-out within a two-year period starting in 1999. As of August 1999, roll-out on 5 branches have been achieved as Bank Mandiri Pilot Branches.

With the completion of branch roll-out, our service network will comprise of class A (hub), class B (major spoke), class C (minor spoke) branch offices and cash outlets. Personnel at regional and branch offices will be reduced from 22,137 employees prior to the legal merger to 12,574 following the branch roll-out.

Other Business Developments, Other business developments in corporate banking, government relationship and commercial banking were not nearly as complex as in retail banking. Bank Mandiri merely focused on the consolidation of the businesses of the four Legacy Banks in these areas, and integrated their back office supporting elements into the Bank Mandiri platform. Under corporate banking, we developed a corporate relationship management group, three product management services groups, a specialty group and a support group. In government relationship, there are three government relations management groups and a support group. In commercial banking, we have a commercial relationship management group and two loan workout groups. While in product and business development the emphasis is on improving product and service quality, card products and the development of new delivery channels.

# TREASURY AND INTERNATIONAL BANKING

Edwin Gerungan, Executive Vice
President, is responsible for the
treasury and international banking
portfolio of Bank Mandiri, which
comprises a separate Global Market
(capital markets sales and trading
activities) and Treasury (bank funding
activities) as well as an economic and
financial research arm in support of
trading activities. The portfolio also
includes International Banking,
Financial Institution Relations,
International Financial Services and
the operations of Bank Mandiri's
overseas branches in Tokyo,

Hong Kong, Singapore, London, the Cayman Islands and Cook Islands.

"The greatest challenge for international banking today is to regain the confidence of the international banking community in the Indonesian banking sector," explains Edwin Gerungan.

He underlines the importance of recent international roadshows by Senior Management as an effective way of establishing Bank Mandiri internationally.

A career banker with over 25 years of experience in treasury operations, Edwin Gerungan brings a wealth of expertise and extensive international contacts which are highly suitable for his post at Bank Mandiri.

Bank Mandiri has established a Treasury, Global Market and Operations organizational structures that are in accordance with international best practice.

#### Drawing Lines of Responsibilities.

These three units are separate and independent of each other. Treasury has a clear responsibility of managing and funding the Bank's balance sheet and cashflow. While Global Market is a clearly defined business division that focuses on generating profits from servicing clients as well as from proprietary trading. This separation allows Bank Mandiri to draw a clear line between its Global Market trading book and Treasury book, each of

which has several risk limits and profit/loss statements. In addition to the separation, we employ a fully independent Treasury and Global Market operations (back office) department. This is critical for the operations department to exercise control over the front office trading activities. Thus, our Operations Department can guard against irregular, erroneous or fraudulent trading.

Risk Management. On top of everything else, Bank Mandiri has a Risk Control Group which is fully independent from Treasury and Global Market. The Risk Control Group reports directly to the Financial Controlling Head. This Group closely measures and monitors market risk, liquidity risk and credit risk on a real time basis using best practice risk measurement tools. This was achieved in June 1999 with the installation of the risk management platform, Plateau, linking the front and back office platform for centralized risk management.

#### Established Policies and Guidelines.

In addition, we have developed a comprehensive standard operating procedure manual as well as risk policy guidelines for both Treasury and Global Market. These manuals clearly define the different responsibilities of Treasury, Global Market and Operations, the methodology for monitoring and measurement of market and liquidity risks as well as guidelines for setting risk limits, approving limit excesses and new product approvals.

International Banking, In International Banking, the emphasis during 1999 wa's for Bank Mandiri to regain the confidences of the international banking community. This involved highlighting the viabilities of Bank Mandiri and the recovery of the Indonesian banking sector in general in the wake of the Asian financial crisis. To that end, Bank Mandiri undertook several roadshows to Singapore, Hong Kong, London and New York to meet with the heads of leading international banks. The Bank Mandiri roadshow team, comprising the President Director and several Executive Management personnel presented Bank Mandiri as a Bank that is in a far more stronger position than any of its four Legacy Banks; that it has a sound and solid professional management and that, most importantly, it has restructured most of its banking operations in accordance with international best practice with the help of Deutsche Bank, a world leading bank, and several international management consultants. This led to several international banks resuming their credit line facilities to Bank Mandiri in 1999.

### FINANCIAL CONTROL

BANK MANDIRI IS WORKING TOWARDS ESTABLISHING A FINANCIAL CONTROL AND ACCOUNTING FUNCTION THAT IS IN LINE WITH INTERNATIONAL BEST PRACTICE, AS WELL AS ACCOUNTING SYSTEMS AND PROCESSES THAT ARE FULLY INTEGRATED. CAPABLE OF SUPPORTING THE NEW BANK MANDIRI IN TERMS OF PERFORMANCE MANAGEMENT. COST EFFICIENCY, INTERNAL CONTROL RECONCILIATION. PEOPLE MANAGEMENT AND REGULATORY REPORTING NEEDS.

拼

"CROSSING THE TAPE"

In 1999, the complexities in the integration process of the controlling/ accounting systems of the four Legacy Banks required Bank Mandiri to organize seven working teams involving a total of 75 bank staff and external consultants. These seven areas of work comprise regulatory reporting, internal financial management reporting, accounting policy, charts of accounts, office of the controller, general ledger application system architecture and controlling/accounting processes, all of which need to be reviewed, improved and aligned to meet the single platform requirement of Bank Mandiri.

As at year-end 1999, Bank Mandiri had achieved significant progress in these integration efforts. In regulatory reporting, for instance, Bank Mandiri is now able to report total deposit in IDR and USD with all branches, and a weekly assets and liabilities status.

A financial management reporting on profit/loss, balance sheet consolidation, business unit and cost center financial performance has also been made available. A new policy manual on accounting has been published. Twenty principal policies has been stated according to international best practice. The office of the controller has been effective since mid May 1999 and is currently fully operational. The general ledger application system architecture has been finalized and work continues on the systems development for an integrated general ledger and reporting system. The single remaining challenge lies with a controlling/accounting processes where consolidation of financial information for inter-branch reconciliation purposes is still performed across nine system platforms.

Plans are in place to implement a more comprehensive MIS when all ledgers and financial data have been converted into a single information technology platform by 2001.

## FINANCIAL REVIEW

PT Bank Mandiri (Persero) (hereinafter referred to as "Bank Mandiri" or the "Bank") was established on October 2, 1998, as a banking institution wholly-owned by the Government of Indonesia. On July 31, 1999, four other state-owned banks, namely PT Bank Bumi Daya (Persero), PT Bank Dagang Negara (Persero), PT Bank Ekspor Impor Indonesia (Persero) and PT Bank Pembangunan Indonesia (Persero), were merged into Bank Mandiri. The establishment of Bank Mandiri was thus part of the Government's effort in resolving the crisis in the country's banking sector, and in particular the revitalization of state-owned banks.

#### **OPERATING RESULTS**

(in millions of Rupiah, for the period ending December 31)	1999	1998
Net interest income (expenses)	(21,764,575)	(25,763,386)
Non-interest income	3,747,642	1,164,125
Other income (expenses)	(1,280,151)	(530,290)
Provisions for loss for loans and other earning assets	(36,301,666)	(85,919,495)
Operating expenses	(12,556,696)	(13,663,339)
Loss before income tax	(68,155,446)	(124,712,385)
Income tax	•	(261)
Net loss before minority interest	(68,155,446)	(124,712,646)
Minority interest	85	569,646
Net income (loss)	(68,155,361)	(124,143,000)

Net Interest Income (Expenses). Bank Mandiri booked a net interest expenses of Rp 21.8 trillion in 1999, compared to Rp 25.8 trillion of net interest expenses recorded in 1998. In the seven-month of 1999 period prior to the merger, the Bank incurred net interest expenses of Rp 18.0 trillion. Meanwhile, in the five-month period following the merger Bank Mandiri still recorded net interest expenses of Rp 3.8 billion, with the recapitalization of the Bank being completed only in October and December of the year. The negative interest income was mainly due to negative spread condition prevailing in Indonesia's banking sectors in the periods being compared.

Bank Mandiri derives its interest and investment income from its loan portfolios, marketable securities, placement with other banks, and others. In 1999, interest and investment income, including income from fees and commissions, amounted to Rp 14.1 trillion, compared to Rp 18.7 trillion in 1998. The largest contributor to interest and investment income was from loans (56.9%), followed by marketable securities (31.4%), placement with other banks (6.0%) and others (5.7%).

Total interest and other financing expenses in 1999 amounted to Rp 35.9 trillion, compared to Rp 44.5 trillion in 1998. These represented interest and other financing expenses incurred on the Bank's time deposits, giro and saving accounts, borrowings, promissory notes issued, and others. Interest expenses paid on time deposits amounted to Rp 29.5 trillion, representing 82.4% of the Bank's total interest and other financing expenses.

Other Operating Income (Expenses). Other operating income in 1999 amounted to Rp 3.7 trillion, compared to Rp 1.2 trillion in 1998. A significant portion of other operating income was contributed by gain from foreign exchange transaction, which amounted to Rp 3.0 trillion in 1999.

Other operating expenses, comprising provisions for earning asset losses, general and administrative expenses, employee salaries and benefits, and others, totalled Rp 48.9 trillion in 1999, compared to Rp 99.6 trillion in 1998.

Provisions for earning asset losses represented the largest component of the Bank's other operating expenses, and amounted to Rp 36.3 trillion in 1999, compared to Rp 85.9 trillion in 1998. These represent the amount set aside for the allowance for earning asset losses in the respective period being compared for giro and placement with other banks, marketable securities, the government bonds, other lines and facilities received, loans outstanding, and equity participation investments.

In 1999, general and administrative expenses, and employee salaries and benefits, including expenses for the Bank's Voluntary Separation Scheme, amounted to Rp 1.8 trillion and Rp 4.2 trillion, respectively. In 1998, the respective amounts were Rp 1.6 trillion and Rp 1.3 trillion.

**Operating Income (Loss).** As a result of the above, Bank Mandiri booked an operating loss of Rp 66.9 trillion in 1999. Operating loss in 1998 was recorded at Rp 124.2 trillion.

**Net Income (Loss).** After accounting for non-operating income (expenses), provisions for income tax and minority interest in net loss (income) of consolidated subsidiaries, Bank Mandiri booked a net loss of Rp 68.2 trillion in 1999, compared with net loss of Rp 124.1 trillion in 1998.

#### CHANGES IN FINANCIAL POSITIONS

(in millions of Rupiah, as of December 31)	1999	1998
Total assets	224,646,943	100,532,134
Total liabilities	217,703,422	201,975,096
Total shareholders' equity	6,943,521	(101,442,962)

Liquidity. The Bank strives to maintain a healthy liquidity by keeping its current assets at adequate levels to cover its maturing liabilities at any given period. The Bank's current assets, comprising cash, giro with Bank Indonesia and with other banks, and net of allowance for losses, amounted to Rp 14.7 trillion as at year-end 1999, an increase of 21.8% from Rp 12.1 trillion a year earlier. The following table compares the Bank's current assets to its total assets and total third-party deposits, at end of the years stated.

Ratio	1999	1998
Current assets to total assets	6.57%	12.05%
Current assets to deposits	9.97%	7.96%

Earning Assets. The Bank's total earning assets, including off-balance sheet accounts, but net of allowances for possible losses, amounted to Rp 210.8 trillion as at year-end 1999, comprising of placement with other banks, marketable securities, Government bonds, equity participation investment and loans outstanding.

Loans Outstanding. Total loans outstanding at year-end 1999 amounted to Rp 44.0 trillion, a decline of 67.2% from Rp 134.2 trillion at year-end 1998. The decline was primarily attributable to the write-offs of Collectibility 5 (Loss) category loans transferred to the Indonesian Bank Restructuring Agency in 1999. The following tables give the composition of the Bank's loan portfolios according to type of credit, sectoral distribution and maturities.

	. (in millions of Rupia

Total	44,022,662

<sup>\*)</sup> Comprising of Rp 4,6 trillion which is in the process of being transferred to IBRA, with the rest in the process of being restructured.

Investments in Shares of Stock. Aside from equity stakes in consolidated subsidiary companies, Bank Mandiri also has investments in shares of stock of unlisted companies, either as a long-term investment or temporary investment as part of loan recovery and work-out processes. As at year-end 1999, the Bank's investments in shares of stock, net of allowance for possible losses, amounted to Rp 249.4 billion, a decline of 54.7% from Rp 550.7 billion at year-end 1998.

Deposits. Third-party deposits represent the main source of the Bank's funding, and consist of giro, savings account, time deposits account, and certificates of deposit. Total third-party deposits as at year-end 1999 amounted to Rp 148.0 trillion, relatively unchanged compared with Rp 152.2 trillion at year-end 1998. The following table gives the composition of third-party deposits at the end of the years being compared.

AND A CONTROL OF THE		(in millions of Rupiah)	
Third-Party Deposits	1999	1998	
Giro	19,856,050	18,233,118	
Savings	14,305,273	8,795,767	
Time deposits	113,279,031	120,505,751	
Certificates of deposit	565,219	4,691,602	
Total Third-Party Deposits	148,005,573	152,226,238	

Equity. The Bank's total equity as at year-end 1999 amounted to Rp 6.9 trillion (before deduction of Rp 2.657 trillion of Government bonds), compared with an equity deficit of Rp 101.4 trillion a year earlier. Changes in the Bank's equity were mainly due to additional paid-in capital and accumulation of deficit. Additional paid-in capital represented funds for the Bank's recapitalization in the form of Government bonds worth a total of Rp 178.0 trillion, which were accounted for as Rp 177.749 trillion of additional paid-in capital, and Rp 0.251 trillion as addition to issued and fully paid-in share capital. Accumulation of equity deficit meanwhile increased from Rp 105.5 trillion at year-end 1998 to Rp 175.0 trillion at year-end 1999.

Capital Adequacy. The following table gives the calculation of the Bank's capital adequacy at year-end 1999.

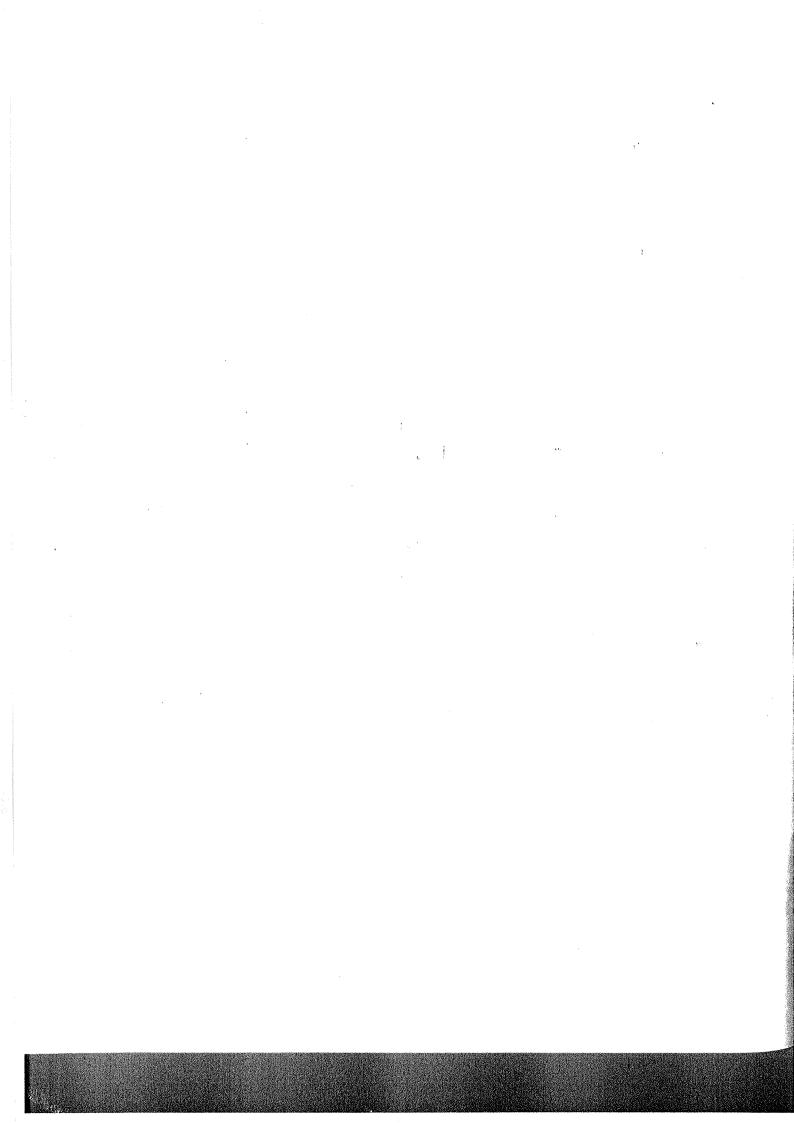

(in millions of Rupíah, except where otherwise stated)	1999 (consolidated)
Tier-I capital	4,265,856
Tier-II capital	4,265,856
Total capital	8,531,712
Risk-weighted assets	61,412,008
Risk-weighted off-balance sheet exposure	9,563,017
Total risk-weighted assets	70,975,025
Capital adequacy ratio	12.02%

#### INDEPENDENT AUDITORS' REPORT

Report No. 34116S

The Stockholder and the Boards of Commissioners and Directors **PT Bank Mandiri** (Persero)

We have audited the consolidated balance sheet and statement of commitments and contingencies of PT Bank Mandiri (Persero) (hereinafter referred to as "Bank Mandiri") and Subsidiaries as of December 31, 1999, and the related consolidated statements of income, changes in stockholder's equity (capital deficiency) and cash flows for the five months then ended. These-financial statements are the responsibility of Bank Mandiri's management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of Bank Mandiri's overseas branches and Subsidiaries for the five months ended December 31, 1999, which financial statements reflect total assets of 3.48% and interest and investment income of 4.20%, of the related consolidated totals. Those financial statements have been audited by other auditors, whose unqualified reports have been furnished to us. Our opinion insofar as it relates to amounts included for such overseas branches and Subsidiaries is based solely on the reports of the other auditors. We also did not audit the consolidated financial statements of Bank Mandiri and its Subsidiaries (former PT Bank Bumi Daya (Persero) and Subsidiaries, former PT Bank Dagang Negara (Persero) and Subsidiaries, former PT Bank Ekspor Impor Indonesia (Persero) and former PT Bank Pembangunan Indonesia (Persero), the four banks hereinafter referred to as "Merged Banks") for the seven months ended July 31, 1999, which financial statements are included in the accompanying consolidated statements of income, changes in stockholder's equity (capital deficiency) and cash flows for the year ended December 31, 1999. As explained in Note 3 to the consolidated financial statements, after their merger into Bank Mandiri effective July 31, 1999, the Merged Banks were legally dissolved without the process of liquidation. The consolidated financial statements of Bank Mandiri and Subsidiaries for the seven months ended July 31, 1999 and the year ended December 31, 1998 (before the merger), which are presented for comparative purposes, have been audited by other auditors, and whose reports dated March 20, 2000 and September 30, 1999, respectively, expressed unqualified opinion on those statements. The opinion of such auditors, however, does not cover the adjustments of those statements as discussed in Note 3.

We conducted our audit in accordance with auditing standards established by the Indonesian Institute of Accountants. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of the other auditors provide a reasonable basis for our opinion.

## PRASETIO UTOMO ARTHUR ANDERSEN

This Report is Originally Issued in Indonesian Language.

In our opinion, based on our audit and the reports of the other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Bank Mandiri and its Subsidiaries and their commitments and contingencies as of December 31, 1999, the results of their operations and their cash flows for the five months then ended in conformity with generally accepted accounting principles.

As discussed in Note 35 to the consolidated financial statements, the adverse economic conditions in Indonesia which, in 1998 up to the middle of 1999, have been characterized by volatile foreign currency exchange rates, high interest rates, tight liquidity and lack of public confidence in the country's banking system, have significantly affected the banking services sector, including the operations of Bank Mandiri and its Subsidiaries. These economic conditions have also caused uncertainty with respect to the ability of Bank Mandiri's and its Subsidiaries' customers to fulfill their obligations when they mature, thereby significantly increasing the credit risks inherent in their lending portfolio. Furthermore, the adverse economic conditions have also affected Bank Mandiri's and its Subsidiaries' cost of funds. Since the second half of 1999 up to the date of our report, the economic conditions in Indonesia showed signs of recovery such as lower interest and inflation rates. In 1999, the banking sector started to obtain recapitalization from the Indonesian Government and earning assets classified as loss have been transferred to the Indonesian Bank Restructuring Agency (IBRA). Such assets have been written off prior to their transfer to IBRA, thereby reducing provisions for possible losses. However, the banking sector continued to post negative interest margins for the years ended December 31, 1999 (and 1998). Bank Mandiri and its Subsidiaries recorded provisions for possible losses on earning assets of Rp 36 trillion in 1999 (and Rp 86 trillion in 1998) and negative interest margins of Rp 22 trillion in 1999 (and Rp 26 trillion in 1998). As discussed in Note 4, in 1999, by virtue of Government Regulation No. 52 of 1999 and Joint Decrees dated July 29, 1999 of the Minister of Finance and the Governor of Bank Indonesia concerning the Recapitalization Program for State-owned Commercial Banks, the Indonesian Government implemented the Recapitalization Program for Bank Mandiri. Further, based on the Interim Recapitalization Agreement between the Indonesian Government and Bank Mandiri dated October 12, 1999 and the Amendment to the Interim Recapitalization Agreement dated December 28, 1999, the Indonesian Government issued Government Bonds totaling Rp 178 trillion to increase the Republic of Indonesia's investment in shares of stock of Bank Mandiri. Upon recapitalization, Bank Mandiri has fulfilled the minimum Capital Adequacy Ratio requirement of Bank Indonesia and has a positive stockholder's equity position as of December 31, 1999. Further, as discussed in Note 37, on April 8, 2000, Bank Mandiri and the Indonesian Government entered into a Management Contract, which sets forth among others, the terms and conditions governing the recapitalization of Bank Mandiri, the final amount of which was determined to be Rp 173.931 trillion together with Rp 1.412 trillion to be retained to cover the deficiency in the paid-up capital stock as stipulated in Bank Mandiri's Articles of Association, resulting in the total amount of Government Bonds

## PRASETIO UTOMO ARTHUR ANDERSEN

This Report is Originally Issued in Indonesian Language.

to be returned to the Indonesian Government of Rp 2.657 trillion. The accompanying consolidated financial statements include the effects of the adverse economic conditions to the extent they can be determined and estimated. Recovery of the economy depends on the monetary, fiscal and other measures that have been and will be undertaken by the Indonesian Government, actions which are beyond the control of Bank Mandiri and its Subsidiaries. It is not possible to determine the future effects of the adverse economic conditions on Bank Mandiri's and its Subsidiaries' earnings and realization of their earning assets, including the effects from their customers, creditors and stockholder.

<sup>\*)</sup> The consolidated statement of cash flows for the year ended December 31, 1999 include the cash flows of Bank Mandiri and former PT Bank Bumi Daya (Persero) and Subsidiaries, former PT Bank Dagang Negara (Persero) and Subsidiaries, former PT Bank Ekspor Impor Indonesia (Persero) and former PT Bank Pembangunan Indonesia (Persero), prior to their merger into Bank Mandiri effective on July 31, 1999, based on the reports of the other auditors.

#### 1. GENERAL

PT Bank Mandiri (Persero) (hereinafter referred to as "Bank Mandiri") was established in the Republic of Indonesia on October 2, 1998 under Government Regulation No. 75 of 1998 dated October 1, 1998 and based on notarial deed No. 10 of Sutjipto, S.H. dated October 2, 1998. The deed of establishment was approved by the Minister of Justice in his decision letter No. C2-16561 HT.01.01.Th.98 dated October 2, 1998 and was published in Supplement No. 6859 of State Gazette No. 97 dated December 4, 1998. Bank Mandiri was established by the acquisition of almost all shares of the Republic of Indonesia in PT Bank Bumi Daya (Persero) (BBD), PT Bank Dagang Negara (Persero) (BDN), PT Bank Ekspor Impor Indonesia (Persero) (BankExim) and PT Bank Pembangunan Indonesia (Persero) (Bapindo) (hereinafter collectively referred to as "Merged Banks"), and by depositing cash in payment of the capital for establishing Bank Mandiri.

Bank Mandiri's Articles of Association has been amended several times, most recently by notarial deed No. 98 of Sutjipto, S.H., dated July 24, 1999, concerning among others, the increase in the capital of the Government of the Republic of Indonesia. This amendment was accepted by the Minister of Justice in his decision letter No. C-13.781.HT.01.04.TH.99 dated July 29, 1999 and published in Supplement No. 252 of the State Gazette No. 77 dated September 24, 1999.

According to Article 3 of Bank Mandiri's amended Articles of Association, its scope of activities comprises engaging in commercial banking activities.

Bank Mandiri's head office is located in Jakarta. As of December 31, 1999, Bank Mandiri has ten (10) regional offices, covering fifty-five (55) "hubs", five hundred twenty nine (529) "spokes" and seventy four (74) cash outlets. In addition, Bank Mandiri has five (5) branch offices and two (2) representative offices overseas. Effective July 31, 1999, both representative offices located in New York and Los Angeles, United States of America were closed and the administration of transactions in the said offices was moved to Cayman Islands Branch. As of December 31, 1999, the approval of the closure of the two (2) representative offices is still pending.

At the Extraordinary General Meetings held on July 24, 1999 and covered by notarial deeds No. 93, 94, 95, 96 and 97 of Sutjipto, S.H., the stockholder of Bank Mandiri, BBD, BDN, BankExim and Bapindo approved the merger plan among Bank Mandiri and the Merged Banks. Based on the deed of merger No. 100 dated July 24, 1999 of Sutjipto, S.H., BBD, BDN, BankExim and Bapindo were merged into Bank Mandiri. The merger was declared effective by the Chief of the South Jakarta Office of the Department of Trade and Industry in his decision letter No. 09031827089 dated July 31, 1999 (see Note 3). The consolidated balance sheet as of August 1, 1999, reflecting the above-mentioned merger, was reviewed by an independent accountant.

On May 28, 1999, the Government issued Government Regulation No. 52 of 1999 which provided for the increase in its capital participation in Bank Mandiri through Government Bonds to be issued by the Minister of Finance with a value of up to Rp 137.8 trillion within the framework of the Government's Recapitalization Program. On December 24, 1999, the Government issued Government Regulation No. 97 of 1999 which provided for the increase in the capital of Bank Mandiri by Rp 42.2 trillion (see Note 4).

On April 8, 2000, Bank Mandiri and the Government signed a Management Contract which provided for, among others, the return by Bank Mandiri of excess Government Bonds amounting to Rp 2.657 trillion or equivalent to 2,657,000 (two million six hundred fifty seven thousand) units, to the Ministry of Finance on April 10, 2000, the effective date of the Management Contract (see Notes 4, 8 and 34a).

Based on the Stockholder's Extraordinary General Meeting held on July 24, 1999 and covered by notarial deed No. 97 of Sutjipto, S.H., the members of Bank Mandiri's Boards of Commissioners and Directors are as follows:

#### **Board of Commissioners**

President Commissioner : Binhadi
Commissioner : Soedarjono
Commissioner : Markus Parmadi
Commissioner : Sabana Kartasasmita

#### Board of Directors

President Director : Robby Djohan
Director : I Wayan Pugeg
Director : Agus Martowardojo

During the above-mentioned Extraordinary General Meeting, I Wayan Pugeg was also appointed as the Compliance Director of Bank Mandiri.

As of December 31, 1999, Bank Mandiri has a total of 19,606 employees.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### a. Basis of Consolidated Financial Statements

The consolidated financial statements of Bank Mandiri and Subsidiaries have been prepared in conformity with generally accepted accounting principles and, where applicable, prevailing banking industry practices and accounting and reporting guidelines prescribed by the bank regulatory authority.

The consolidated financial statements have been prepared on the historical cost basis of accounting, except for certain premises and equipment which were revalued based on government regulation, certain securities which are stated at market value, Government Bonds which are stated at index value, certain investments in shares of stock accounted for under the equity method and interest income on non-performing assets which is recorded on cash basis.

The consolidated statements of cash flows present receipts and payments of cash and cash equivalents classified into operating, investing and financing activities, using the indirect method for presentation of cash flows from operating activities. For presentation in the consolidated statements of cash flows, cash and cash equivalents consist of cash, current accounts with Bank Indonesia, current accounts with other banks, placements with other banks and financial institutions, securities and Government Bonds with original maturities of three (3) months or less at the date of placement.

Effective January 1, 1999, Bank Mandiri and its Subsidiaries present statement of changes in stockholder's equity (capital deficiency) as required under the revised Statement of Financial Accounting Standards (PSAK) No. 1, "Presentation of Financial Statements".

The details of certain accounts disclosed in the Notes herein, mainly pertaining to periods prior to the legal merger, are not presented on a comparative basis due to the non-availability of such information or the impracticability of presenting the same in conformity with the presentation in 1999, after the merger, as explained in Note 3.

#### b. Principles of Consolidation

The consolidated financial statements include the accounts of Bank Mandiri and its majority-owned Subsidiaries. Significant intercompany balances and transactions have been eliminated.

Subsidiaries included in the consolidated financial statements are as follows:

	Nature of		Percentage of Ownership			
Names of Subsidiaries	Business	Domicile	1999	1998		
Bank Mandiri (Europe)	The state of the s	Mod Billion de delegación este el proposition de la company de la compan		A STATE OF THE STA		
Limited (formerly						
BankExim London						
Branch)	Banking	London	100.00%	~ %		
PT Bank Syariah Mandiri	Banking	Jakarta	100.00			
PT Bumi Daya Sekuritas	Securities	Jakarta	65.00	65.00		
PT Salindo Perdana Finance	Financing	Jakarta		100.00		
Staco International Finance						
Limited, Hong Kong	Financing	Hong Kong	-	100.00		

	Nature of		Percentage of Ownership		
Names of Subsidiaries	Business	Domicile	1999	1998	
BDN Bank AG, Dusseldorf Bumi Daya International	Banking	Hamburg	-%	100.00%	
Finance Limited,	Financial				
Hong Kong	Institution	Hong Kong	<u>.</u>	100.00	
BEII (DTC) Limited,					
Hong Kong	Banking	Hong Kong	-	99.67	
PT Bank Merincorp	Banking	Jakarta	-	74.00	

Effective July 31, 1999, the accounts of Bank Mandiri (Europe) Limited (formerly BankExim London Branch) were consolidated into Bank Mandiri following the approval of the conversion of the London Branch into a subsidiary.

As of the end of 1999, Bank Mandiri owned almost all shares of stock of PT Bank Syariah Mandiri, originating from the former PT Bank Dagang Negara (Persero). It is not practicable to apply the same accounting policies adopted by Bank Mandiri for PT Bank Syariah Mandiri, which engages in banking activities in accordance with Islamic "Syariah" principles. Hence, no adjustments are made in the latter's financial statements for consolidation purposes.

In 1999, certain Subsidiaries have been excluded from Bank Mandiri's consolidated financial statements due to the following reasons:

#### Names of Subsidiaries

Staco International Finance Limited, Hong Kong Bumi Daya International Finance Limited, Hong Kong BEII (DTC) Limited, Hong Kong BDN Bank AG, Dusseldorf PT Salindo Perdana Finance

PT Bank Merincorp

Immateriality

In 1999, investments in the above previously consolidated subsidiaries in the process of liquidation have been accounted for at cost and subsequently written-off against operations.

Staco International Finance Limited, Bumi Daya International Finance Limited and BEII (DTC) Limited were closed following the revocation of their operating licenses by the Hong Kong Monetary Authority and after which, they entered into liquidation proceedings.

Based on the deed of sale dated August 30, 1999, BDN Bank AG, Dusseldorf was sold to MM Warburg & Co.

Based on various deeds of sale and purchase of shares dated July 29, 1999 of Sutjipto S.H., PT Salindo Perdana Finance and PT Bank Mandiri Merincorp were sold to PT Pengelola Investama Mandiri.

Bank Mandiri has five (5) overseas branches in Cook Islands, Cayman Islands, Hong Kong, Singapore and Tokyo. For consolidation purposes, the accounts of these overseas branches and the London Subsidiary were translated into Rupiah on the following bases:

- (1) Assets, liabilities, commitments and contingencies using the middle rates as published by Bank Indonesia at balance sheet date.
- (2) Revenues, expenses, gains and losses using the average middle rates during the months. The year end balances consist of the sum of monthly revenues, expenses, gains and losses during the year.
- (3) Stockholder's equity accounts using historical rates.
- (4) Statements of cash flows using the middle rates as published by Bank Indonesia at balance sheet date, except for income statement accounts which are translated using the average middle rates and stockholder's equity accounts which are translated using historical rates.

The resulting net translation adjustment is reported as "Differences in Foreign Currency Translation" under the Stockholder's Equity section of the consolidated balance sheets.

### c. Transactions with Related Parties

Bank Mandiri and its Subsidiaries have transactions with certain related parties as defined under PSAK No. 7, "Related Party Disclosures".

All significant transactions with related parties, whether or not conducted under similar terms and conditions as those with third parties, are disclosed in Note 31. Transactions between Bank Mandiri with state-owned/controlled entities and entities related to the Indonesian Bank Restructuring Agency (IBRA) due to bank and corporate restructuring, which are conducted under normal terms and conditions and do not fulfill the definition of related parties as stated in PSAK No. 7 and are not required to be disclosed as transactions with related parties.

### d. Allowance for Possible Losses on Earning Assets

Earning assets consist of current accounts with other banks, placements with other banks and financial institutions, securities, Government Bonds, documents and other facilities, loans, and investments in shares of stock, and administrative accounts with lending-related risk. Placements with other banks and financial institutions, securities, Government Bonds, documents and other facilities, loans and investments in shares of stock are defined in Notes 2e, 2f, 2g and 2h.

Administrative accounts with lending-related risk consist of outstanding irrevocable letters of credit, outstanding letters of credit under Bank Indonesia's guarantee program, import draft acceptances, guarantees issued in the form of standby letters of credit, bank guarantees, risk sharing, performance bonds, bid bonds and advanced payment bonds.

Allowance for possible losses on earning assets is provided based on management's review of the quality of the earning assets at the end of the year. The determination of minimum allowance for possible losses on earning assets of Bank Mandiri and Subsidiaries also takes into consideration the guidelines prescribed by Bank Indonesia on the Provision of Allowance for Possible Losses on Earning Assets. Allowance for possible losses on administrative accounts with lending-related risk is recorded under other liabilities.

The allowance for possible losses on earning assets was determined at the following rates:

- (1) General reserve, at the minimum, 1% of earning assets classified as current, excluding Bank Indonesia Certificates and Government Bonds.
- (2) Special reserves, at the minimum:
  - a) 5% of earning assets classified as special mention; and
  - b) 15% of earning assets classified as substandard, net of deductible collateral; and
  - c) 50% of earning assets classified as doubtful, net of deductible collateral; and
  - d) 100% of earning assets classified as loss, net of deductible collateral.

The outstanding balances of earning assets are written off against the respective allowance for possible losses when management of Bank Mandiri and Subsidiaries believe that the earning assets are determined to be definitely uncollectible. Recovery of earning assets previously written-off is recorded as an addition to the allowance for possible losses during the year.

Deductible collateral include Rupiah and foreign currency current accounts, savings and time deposits and guarantee payments, which have been blocked under authorizations to undertake clearing, Bank Indonesia Certificates and Government Debentures, 50% of the market value listed on the stock exchanges at the end of the period for securities, certain percentage of the market value and calculated cost of houses, certain percentage of the market value, calculated cost and capitalized earnings for buildings, aircraft and ships.

The classification of earning assets into current, special mention, substandard, doubtful and loss is determined based on the evaluation by Bank Mandiri's and its Subsidiaries' management of each borrower's business prospects, financial condition and ability to repay, and consideration of the guidelines prescribed by Bank Indonesia regarding the quality of earning assets.

### e. <u>Placements with Other Banks and Financial Institutions, Documents and Other Facilities, and Loans</u>

Placements with other banks and financial institutions represent placements in the form of call money, "fixed terms", time deposits, certificates of deposits and others.

Documents and other facilities represent receivables resulting from contracts for facilities given to customers, which are collectible when due.

Loans represent the provision of money or equivalent receivables under contracts with borrowers, where borrowers are required to repay their debts with interest after a specified period. Restructured loans include interest and other charges converted into principal.

Placements with other banks and financial institutions, documents and other facilities and loans are stated at their outstanding balances net of allowance for possible losses.

#### f. <u>Securities</u>

Securities consist of securities traded in the money market such as mutual fund units, Bank Indonesia Certificates, negotiable certificates of deposits, Commercial Papers, Money Market Securities, other receivables from Bank Indonesia and securities traded in the stock exchanges such as shares of stock and bonds.

Beginning January 1, 1999, in accordance with PSAK No. 50, "Accounting for Certain Investments in Securities", securities are stated based on their respective classifications, as follows:

- (1) Securities held for trading purposes are reported at fair value. Unrealized gains (losses) resulting from the increase (decrease) in fair value are recognized in current operations.
- (2) Held-to-maturity securities are stated at cost reduced (increased) by for amortization of discount or premium.
- (3) Available-for-sale securities are reported at fair value. Unrealized gains or losses resulting from the increase (decrease) in fair value are not recognized in current operations but are presented as a separate component of the stockholder's equity. Unrealized gains or losses are recognized in current operations upon realization.

Any permanent decline in fair value of securities is charged to current operations.

The consolidated financial statements for the year ended December 31, 1998 were not restated in the application of PSAK No. 50 as the related effects are not material.

Securities are stated net of allowance for possible losses and unamortized interest.

#### g. Government Bonds

Government Bonds represent bonds issued by the Government in connection with the recapitalization of commercial banks. Government Bonds are stated at nominal value, except for bonds which have become available for trading, will be stated at fair value and for hedge bonds which are stated at the exchange rate of the Rupiah against US dollar, as published by Reuters on balance sheet date. As of December 31, 1999, the market value of such bonds is not yet available hence the portion of bonds which has become tradable starting February 1, 2000 and which should be stated at fair value upon commencement of trading in accordance with PSAK No. 50, is stated at nominal value.

The resulting exchange rate loss is credited to "Other Liabilities - Unrealized loss on foreign exchange - Hedge Bonds" and charged to current operations (see Notes 8, 20 and 28).

#### h. Investments in Shares of Stock

Investments in shares of stock represent long-term investments in non-publicly-listed companies engaged in the financing industry (except those investments of the non-bank Subsidiary) and temporary investments in debtor companies to manage credit losses.

Investments in shares representing ownership interest of 20% to 50% are accounted under the equity method whereby the investments are stated at cost and adjusted for the proportionate share in the net earnings or losses of the investees and reduced by dividends earned since the acquisition date.

Temporary investments in debtor companies to manage credit losses are recorded based on the equity method, less allowance for possible losses.

All other investments are carried at cost reduced by allowance for possible losses.

#### i. <u>Leases</u>

Lease transactions are accounted for in accordance with PSAK No. 30 on "Accounting for Leases" which prescribes the criteria for capital lease transactions. In line with PSAK No. 30, lease transactions are classified as capital leases by the lessee when all of the following criteria are met:

- (1) The lessee has an option to purchase the lease d assets at the end of the lease period at a price mutually agreed upon at the commencement of the lease agreement.
- (2) Total periodic payments plus residual value fully cover the acquisition cost of leased capital goods plus interest thereon which is the lessor's profit (full pay-out lease).
- (3) The lease period covers a minimum of two (2) years.

Lease transactions that do not meet any of the above criteria are reported using the operating lease method.

#### j. Premises and Equipment

Premises and equipment are stated at cost, except for certain premises and equipment used in operations, which were revalued in accordance with the Decrees of the Minister of Finance of the Republic of Indonesia as follows:

- (1) Decree of the Minister of Finance of the Republic of Indonesia No. 057/KMK.017/1996 dated December 15, 1997, for BBD.
- (2) Decree of the Minister of Finance of the Republic of Indonesia No. 109/KMK/04/1979 dated March 27, 1979, as of January 1, 1979, for BDN.
- (3) The premises and equipment have been revalued three (3) times, the latest based on the Decree of the Minister of Finance of the Republic of Indonesia No. 914/KMK.04/1986 dated October 25, 1986, as of January 1, 1987, for BankExim.

Depreciation and amortization are computed using the straight-line method over the estimated useful lives of the assets as follows:

	Years
Landrights	respective terms
Buildings	15 - 50
Furniture, fixtures and office equipment	2 - 5
Vehicles	2 - 5

Construction in progress is stated at cost and presented as part of premises and equipment. The accumulated costs will be reclassified to the appropriate premises and equipment account when the asset is substantially complete and ready for its intended use.

The cost of repairs and maintenance is charged to operations as incurred; significant renewals and betterments are capitalized. When assets are retired or otherwise disposed of, their carrying values and the related accumulated depreciation and amortization are removed from the accounts and any resulting gains or losses are reflected in current operations.

### k. <u>Prepaid Expenses</u>

Prepaid expenses (included as part of "Other Assets") are amortized over the periods benefited using the straight-line method.

#### l. <u>Deposits</u>

Demand deposits represent customers' funds which can be used as payment instruments, and which the depositors are entitled to withdraw at any time through check writing, automated teller machines or other means. These are stated at the amounts entrusted by depositors.

Savings deposits represent customers' funds which the depositors are entitled to withdraw under certain conditions. These are stated at the amounts invested by depositors.

Time deposits represent customers' funds which the depositors are entitled to withdraw at specific maturities. These are stated at nominal value based on the agreement with the depositors.

Certificates of deposits represent time deposits covered by negotiable certificates. These are stated at nominal value reduced by unamortized interest.

#### m. Interest Income and Expense

Interest income and interest expense are recognized on the accrual basis. Interest income on earning assets classified as non-performing (substandard, doubtful and loss) is recognized upon actual cash collection (cash basis).

Accrued interest income on non-performing assets of Bank Mandiri and Subsidiaries is reported in the consolidated statements of commitments and contingencies.

Based on Bank Indonesia regulation on the quality of earning assets, accrued interest income on earning assets determined to be non-performing is reversed against interest income and charged to current operations when the earning assets are classified as non-performing.

#### n. Fees and Commissions

Significant fees and commissions which are directly related to lending activities and/or having specific time periods are deferred and amortized using the straight-line method over their respective time periods. The balances of unamortized fees and commissions relating to loans settled prior to maturity are recognized upon settlement. Other fees and commissions which are not directly related to either lending activities or specific time periods are recognized at transaction date.

#### o. Pension Plan

Bank Mandiri established a defined contribution pension plan covering substantially all of their eligible employees from August 1, 1999, and a defined benefit pension plan which was derived from each Merged Bank's pension plan. The assets from each defined benefit pension plan were carried forward as assets of the Merged Banks' Pension Plan (see Note 30).

Unrecognized past service cost and actuarial adjustments are amortized over the estimated remaining working lives of employees as actuarially determined.

#### p. Foreign Currency Transactions and Balances

Transactions involving foreign currencies are recorded at the rates of exchange prevailing at the time the transactions are made. At balance sheet date, monetary assets and liabilities denominated in foreign currencies are adjusted to Rupiah to reflect the prevailing rates of exchange as published by Bank Indonesia at the last banking transaction date for the year. The resulting gains or losses are credited or charged to current operations.

As of December 31, 1999, the exchange rate used was Rp 7,100 (seven thousand one hundred Rupiah) to US\$ 1 (one US dollar) computed by taking the average of the buying and selling rates for bank notes and export bills as of December 30, 1999, the last transaction date for the year. (As of December 31, 1998, the exchange rate used was Rp 8,025 (eight thousand twenty five Rupiah) to US\$ 1 (one US dollar) by BDN, BBD and Bapindo, and Rp 8,068 (eight thousand sixty eight Rupiah) to US\$ 1 (one US dollar) by BankExim).

Gains or losses from forward foreign exchange transactions resulting from the difference between the contracted forward rate and the exchange rate at balance sheet date are credited or charged to current operations.

#### q. Provision for Income Tax

Provision for income tax is determined on the basis of estimated taxable income for the year. No deferred tax is provided by Bank Mandiri and Subsidiaries for the temporary differences in the recognition of income and expenses for financial reporting and income tax purposes.

On December 23, 1997, the Indonesian Institute of Accountants (IAI) issued PSAK No. 46 on "Accounting for Income Tax" which is effective on January 1, 1999 for public companies and January 1, 2001 for non-public companies. PSAK No. 46 requires recognition and measurement of deferred tax assets and liabilities for the expected future tax consequences of events recognized in the financial statements, including tax loss carryforwards. The amount of the effects of this new PSAK on the consolidated financial statements has not been determined yet.

## 3. BANK MANDIRI MERGER AND ADJUSTMENT OF THE CONSOLIDATED FINANCIAL STATEMENTS

At the end of February 1998, the Government announced its plan to restructure the Merged Banks.

In connection with such restructuring plan, the Government established Bank Mandiri in October 1998 through the payment of cash and the acquisition of the Republic of Indonesia's shares of stock in the Merged Banks (see Note 23). Due to impracticability, the difference between the transfer price and the book value of the shares of stock at the time of the acquisition was not calculated. All losses incurred during the year of acquisition were recognized as deficit and have been taken into account in the recapitalization program (see Note 4).

The above-mentioned restructuring plan provided for, among others, the merger of the Merged Banks into Bank Mandiri in July 1999 and the recapitalization of Bank Mandiri to enable it to operate as a sound bank without a negative equity (see Note 4). The restructuring of the Merged Banks and Bank Mandiri also covered the following:

- a. Restructuring of loans (see also Note 34c).
- b. Restructuring of non-loan assets.
- c. Rationalization of domestic and overseas offices (see also Note 2b).
- d. Rationalization of human resources (see also Note 27).

Based on the merger deed No. 100 of Sutjipto, S.H. dated July 24, 1999, the Merged Banks were legally merged into Bank Mandiri. The merger deed was legalized by the Minister of Justice in his decision letter No. C-13.781.HT.01.04.TH.99 dated July 29, 1999 and approved by the Governor of Bank Indonesia in his decision letter No.1/9/KEP.GBI/1999 dated July 29, 1999. The merger was declared effective by the Chief of the South Jakarta Office of the Ministry of Trade and Industry in his decision letter No. 09031827089 dated July 31, 1999. Effective on the same date, the Merged Banks were legally dissolved without the process of liquidation and Bank Mandiri, as the surviving bank, received the rights, obligations and equity of the Merged Banks. As the merger became effective, Bank Mandiri received additional paid-up capital from each of the Merged Banks amounting to Rp 1,000,000 (one million Rupiah) or equivalent to one (1) share each (see Note 23).

The following accounts as of December 31, 1998 have been adjusted to reflect their consolidation into Bank Mandiri as of the said date:

Account		As iously Reported		As Adjusted
Additional paid-in capital Donated capital Revaluation increment in premises	Rp	22,679,238 811,798	Rp	4
and equipment Deficit	(	20,122 129,044,712)	(	105,533,558)

#### 4. RECAPITALIZATION OF BANK MANDIRI

In response to the effects of the adverse economic conditions in Indonesia on the banking sector (see Note 35), on December 31, 1998, the Government issued Regulation No. 84 of 1998 concerning its Recapitalization Program for Commercial Banks, which was designed to increase the paid-up capital of Commercial Banks to enable them to meet the minimum required Capital Adequacy Ratio (CAR). The eligibility of Commercial Banks for inclusion in the recapitalization program is based on requirements and procedures set forth in the Joint Decrees No. 53/KMK.017/1999 and No. 31/12/KEP/GBI dated February 8, 1999 of the Minister of Finance and the Governor of Bank Indonesia. Under the Joint Decrees, the Government, among others, shall implement the Recapitalization Program for Commercial Banks with respect to all State-Owned Banks, Regional Development Banks and Commercial Banks which have been taken over by IBRA.

On May 28, 1999, the Government issued Government Regulation No. 52 of 1999 (GR No. 52/1999) which provided for the increase in the Republic of Indonesia's capital participation in Bank Mandiri through Government Bonds to be issued by the Minister of Finance with a value of up to Rp 137.8 trillion. The implementation of GR No. 52/1999 is set forth in Joint Decrees No. 389/KMK.017/1999 and No.1/10/KEP/GBI dated July 29, 1999 of the Minister of Finance and the Governor of Bank Indonesia.

During the period the above-mentioned bonds have not yet been issued, Bank Mandiri accounted for such bonds as "Due from the Government" in its balance sheet amounting to Rp 137.8 trillion in accordance with the Government's Commitment through the Ministry of Finance's letter No. S-360/MK.017/1999 dated September 29, 1999 and the approval of the State Minister for Investments of State-Owned Enterprises in his letter No. S-510/M-PBUMN/1999 dated September 29, 1999.

Based on Bank Indonesia Letter No. 1/1/GBI/DPIP dated October 11, 1999, concerning the issuance of Bonds/Government Debentures in connection with the Republic of Indonesia's investment in Bank Mandiri, Bank Indonesia agreed that the above investment be included in Bank Mandiri's core capital (Tier 1) for purposes of calculating its Capital Adequacy Ratio (CAR) as of the end of July 1999 up to September 30, 1999, subject to the condition that not later than October 15, 1999, the Bonds/Government Debentures should have been received by Bank Indonesia.

Based on Government Regulation No. 97 of 1999 dated December 24, 1999, concerning the increase in the Republic of Indonesia's investment in shares of stock of Bank Mandiri within the framework of the recapitalization program, the Republic of Indonesia increased investment would amount to a maximum of Rp 42.2 trillion, such that the total maximum investment would amount to Rp 180 trillion.

In connection with the implementation of the above Government Regulations No. 52 and No. 97 of 1999, in accordance with the Interim Recapitalization Agreement between the Government and Bank Mandiri and its amendment, the Indonesian Government issued Government Bonds in two (2) tranches, that is, Rp 103 trillion on October 12, 1999 and Rp 75 trillion on December 28, 1999, so that as of December 31, 1999, the total Government Bonds issued based on above-mentioned Agreements amount to Rp 178 trillion (see Note 8).

Based on the Management Contract dated April 8, 2000, between Bank Mandiri and the Government, the total amount of recapitalization required by Bank Mandiri is Rp 173.931 trillion, or resulting in an excess of Rp 4.069 trillion. Of such excess, Rp 1.412 trillion is to be retained to cover the deficiency in paid-up capital as stipulated in Bank Mandiri's Articles of Association, whereas the balance of Rp 2.657 trillion is required to be returned to the Government in the form of Government Bonds equivalent to 2,657,000 (two million six hundred fifty seven thousand) units. The amount to be retained to cover the deficiency in paid-up capital as stipulated in Bank Mandiri's Articles of Association is subject to the conduct of a legal audit not later than Bank Mandiri's Initial Public Offering of its shares (see Note 34a).

### 8. GOVERNMENT BONDS

As of December 31, 1999, this account consists of bonds stated at nominal value (except for Hedge Bonds) issued by the Government to Bank Mandiri in connection with its recapitalization program in 1999, with details as follows:

Held-to-maturity	Rp 160,200,000
Trading	3,800,000
Total	Rp 164,000,000

In the context of the above-mentioned recapitalization program, the Minister of Finance implemented an increase in the Republic of Indonesia's paid-up capital in Bank Mandiri through the issuance of Government Bonds to Bank Indonesia and the payment of cash by Bank Indonesia to Bank Mandiri as additional paid-up capital of the Republic of Indonesia. Bank Mandiri used all such cash payment to buy the Government Bonds from Bank Indonesia. This transaction was simultaneously carried out through the Government's and Bank Mandiri's accounts in Bank Indonesia in two tranches, on October 12, 1999 and December 28, 1999 (see Note 4).

The Government Bonds may be used by Bank Mandiri to settle obligations but may not be used to increase assets (see Note 34a), except for Government Bonds classified at available for trading based on prevailing regulations.

The details of Government Bonds are as follows (amounts in billions of Rupiah):

	Serial No	N	ominal	Interest Rate	Maturity Date	Interest Payment Frequency

			26,640			
Total		Rp	178,000			

Beginning February 1, 2000, the FR 0001, VR 0001, VR 0002 and VR 0005 bonds became available for trading in the secondary market based on Bank Indonesia Letter No. 2115/DPM dated January 26, 2000 on "Government Bonds Trading Agreement" (see Note 37a). Under the agreement, Bank Mandiri may trade a total of Rp 675 billion worth of Government Bonds. As of December 31, 1999, the market price for such Government Bonds is not yet available.

Of the total Government Bonds amounting to Rp 178 trillion, Rp 14 trillion, consisting of variable and fixed rate bonds amounting to Rp 7 trillion each, were sold directly to Bank Indonesia and are required to be purchased by Bank Mandiri within six (6) months from December 28, 1999 (see Note 34b).

Government Bonds totaling Rp 3.175 trillion were pledged on loans from other banks, with the details as follows (amounts in billions of Rupiah):

No.	Serial No.	Bank		ncipal	Terms of Bonds	Pledged Terms
1. 2. Significant information related to the loans is as follows:

- a. The annual average interest rate was 29.64% in 1999 (and 25.33 % in 1998) for Rupiah loans and 13.81% in 1999 (and 14.84% in 1998) for foreign currency loans.
- b. The loans are generally collateralized by registered mortgages or by powers of attorney to mortgage or sell, time deposits or other guarantees acceptable to Bank Mandiri. Certain collateral mortgages are covered by insurance policies which have been provided with banker's clauses.
- c. Working capital and investment loans represent loans to customers for working capital and capital goods requirements.
- d. Consumer loans consist of housing, car and personal loans.
- e. The syndicated loans represent loans provided to customers under syndication agreements with other banks. Bank Mandiri's share as lead manager in syndicated loans ranged from 4.50% to 78.00% of the total syndicated loans in 1999. Bank Mandiri's total participation in syndicated loans ranged from 0.06% to 60.00% of the total syndicated loans in 1999.
- f. Government program loans consist of small-scale investment loans, investment loans, permanent working capital loans and working capital loans.
- g. The loans to Bank Mandiri employees consist of interest-bearing loans which are intended for acquisitions of vehicles, houses and other personal properties with maturities ranging from one (1) to twenty-three (23) years. The loans are collected through monthly payroll deductions.
- h. Loans to related parties amounted to Rp 2,403,198 as of December 31, 1999 (and Rp 615,870 as of December 31, 1998) (see Note 31).
- i. As of December 31, 1999, Bank Mandiri has restructured loans amounting to Rp 29,827,875 with allowance for doubtful accounts provided amounting to Rp 15,793,895. Loans in the process of restructuring amounted to Rp 13,297,709 with allowance for doubtful accounts provided amounting to Rp 8,215,027. Interest and the related expenses incurred for the restructuring were converted into loan principal. Total loans restructured through debt-to-equity participation amounted to Rp 289,972.
- j. According to its report (unaudited), as of December 31, 1999, Bank Mandiri has one (1) related party group debtor and one (1) related party individual debtor, as well as one (1) third party group debtors, who have exceeded the Legal Lending Limit (LLL) based on prevailing Bank Indonesia regulations.

k. A summary of changes in the allowance for possible loan losses for the five months ended December 31, 1999 is as follows:

Provision during the period Loan recoveries		11,820,735
Loans written-off	(	13,642,330)
Translation adjustments		217,823
Balance, December 31, 1999	Rp	22,131,786

As explained in Note 2d, allowance for possible losses is provided based on management's review and evaluation of the collectibility and realizable value of the respective loan balances at the end of the year. In determining the total amount of allowance for possible loan losses, Bank Mandiri refers to Bank Indonesia regulations on allowance for possible losses on earning assets.

Management believes that the allowance for possible losses is adequate.

#### 11. INVESTMENTS IN SHARES OF STOCK

The details of investments in shares of stock are as follows:

a) Investments in PT Pabrik Gula Rajawali III, PT Kertas Padalarang and others represent restructured loans through debt to equity participation (see Note 10). Such investments are temporary investments for a maximum of five (5) years based on Bank Indonesia regulations. Accordingly, such investments are accounted for using the equity method regardless of the percentage of ownership. Bank Mandiri has provided allowance for possible losses on such investments of Rp 285,879 in 1999.

On July 29, 1999, invesments in PT Panca Bina Esa, PT Bapindo Loka Sentra Leasing, Indonesian Finance and Investment Company, PT Bina Usaha Indonesia, PT Kliring Deposit Efek Indonesia, PT Bumi Daya – IBJ Leasing, PT Bank Paribas BBD, PT Koexim BDN Finance, PT Bayu Beringin Lestari, PT Bank Indovest Tbk., PT Tahta Medan, PT Salindo Perdana Finance, PT Bank Merincorp and PT Dystar Cilegon were transferred to PT Pengelola Investama Mandiri, a company owned by PT Usaha Gedung Bank Dagang Negara and PT Bumi Daya Plaza, for a total consideration of Rp 100 (one hundred Rupiah) each.

The classification of investments in shares of stock by collectibility as of December 31, 1999 is as follows:

Current Loss Total	Rp	251,625 321,514
Less allowance for possible losses	(	573,139 323,767)
Net	Rp	249,372

b) Investments in PT Asuransi Staco Raharja, PT Usaha Gedung Bank Dagang Negara and PT Bumi Daya Plaza are recorded at cost and are not consolidated, even though the percentage of ownership is more than 50%, since their amounts are immaterial.

Management believes that the allowance for possible losses is adequate.

### (a) Placements by Other Banks

This account represents fund borrowings which arose from money market placements. Placements by other banks include pledged time deposits for Government Bonds (see Note 8).

The average interest rate in 1999 is 15.30% on Rupiah placements and 7.65% on foreign currency placements.

## (b) Bank Indonesia

This account represents credit facilities obtained from Bank Indonesia which were re-loaned to Bank Mandiri customers. The details of this account are as follows:

	1999		1998
			TO A CONTRACTION OF THE SECOND CONTRACTION O
Rp	1,516,507	Rp	1,809,155
•	455,698	•	7,797

Interest rate for 1999 ranged from 3.00% to 9.60%.

### (c) Others

This account consists of the following:

Ţ.	1999		1998	
Foreign currencies				
Credit line	Rp	3,399,360	Rp	632,432
Floating rate certificates of deposits		1,050,406		3,531,000
Perpetual floating rate notes		887,500		1,003,125
Trade facility		91,960		358,635
Direct offshore loans		3,529		341,883
Term loans		**		527,644
Others		1,117,300	120.000	6,247,601
Total	Rp	6,550,055	Rp	12,642,320

The floating rate certificates of deposits and perpetual floating rate notes will mature on different dates, the latest being undated. Interest rate is determined on every maturity date based on LIBOR plus a certain margin for the period.

Other borrowings will mature on different dates, the latest in 2009.

### (d) Exchange Offer Loan

In accordance with the Government's debt restructuring program for banks, Bank Mandiri exchanged certain non-Rupiah denominated obligations obtained from foreign banks, for new borrowings with extended maturities and guarantees by Bank Indonesia pursuant to the exchange offer memorandum in the Master Loan Agreement as follows:

	*	ah Equivalent	
Exchange Offer Loan I Exchange Offer Loan II	Rp	1,431,917 5,578,077	
Total	Rp	7,009,994	

Exchange Offer Loan I (with original maturities before April 1, 1999) will become due in four (4) tranches every August 25 from 1999 to 2002, Exchange Offer Loan II (with original maturities before January 1, 2002) will mature in four (4) tranches every June 1 from 2002 to 2005. These borrowings bear interest calculated every six months equal to six-months LIBOR for the period plus applicable margin determined for each maturity period.

### Two-Step Loans (TSL)

### (a) Nordic Investment Bank (NIB)

This account represents credit facility obtained from NIB through Bank Indonesia to finance several projects in Indonesia. The details of these facilities are as follows:

Credit Facilities,	Purpose	Repayment Period
Nordic Investment Bank I	Finance investment project with high priority, primarily private sector relating to Indonesia's interest and Scandinavian countries	March 23, 1988 - July 15, 2002
Nordic Investment Bank II	Finance investment project with high priority, primarily private sector relating to Indonesia's interest and Scandinavian countries	December 10, 1990 - July 15, 2005
Nordic Investment Bank III	Finance investment project with high priority, primarily private sector relating to Indonesia's interest and Scandinavian countries	August 4, 1993 - August 15, 2008
Nordic Investment Bank IV	Finance investment project with high priority, primarily private sector relating to Indonesia's interest and Scandinavian countries	April 15, 1997 - February 28, 2017

The annual interest rate on the NIB I facility is 1.75% above the interest rate charged by NIB to the Government or the interest rate charged on channeling loans to customers less 6% whichever is higher.

The interest rate on NIB II facility is based on the past six-months average interest rate for three-month Bank Indonesia Certificates which should:

- Not be higher than the average interest rate for three-month time deposits for the past six months in five state-owned banks.
- Not be lower than the interbank interest rate to the Government plus 1.75%.

The interest rate on NIB III facility is based on the previous six-months average variable interest rate for three-month Bank Indonesia Certificates, determined on April 15 and October 15 of every year, beginning from the disbursement of the loans.

The interest rate on NIB IV facility was based on the previous six-months variable interest rate as determined by Bank Indonesia based on the prevailing average interest rates for the past six months for three-month Bank Indonesia Certificates.

(Amounts in Millions, Except as Otherwise Stated)

### (b) Export-Import Bank of Japan (EBJ)

This account represents credit facilities obtained from Export-Import Bank of Japan through Bank Indonesia to finance several projects in Indonesia. The details of these facilities are as follows:

Credit Facility	Purpose	Repayment Period
EBJ-TSL I	Private sector projects included in Priority Scale List from/or approved by Investment Coordinating Board	July 15, 1992 - January 15, 2005
EBJ-TSL II	Private and state-owned company projects in sector prioritized by the Government and export-oriented	April 1, 1993 - October 1, 2004
EBJ-TSL III	Private and state-owned company projects in sector prioritized by the Government and export-oriented	January 15, 1994 - July 15, 2005
EBJ-TSL IV	Projects which help to increase investments in private sector and export-oriented	July 15, 1995 - January 15, 2007
EBJ-TSL V	Small-scale Industry, primarily manufacturing sector and export-oriented	September 15, 1994 - March 15, 2003

The interest rate on credit facilities from EBJ-TȘL I and TSL II is based on the weighted average interest rate for customers' deposits in the participating banks as determined by Bank Indonesia every six (6) months, less 1%.

The interest rate on EBJ-TSL III, IV and V is based on the floating interest rate determined every six (6) months based on the prevailing average interest rate for the past six (6) months for three-month Bank Indonesia Certificates, which should:

- Not be higher than the six-months average interest rate for three-month time deposits in five state-owned banks and not be lower than the interest rate on Exim loan plus 4% for EBJ-TSL III.
- Not be higher than the six-months average interest rate for three-month time deposits in five state-owned banks for EBJ-TSL IV and V.

### (c) Asian Development Bank (ADB)

This account represents credit facilities from ADB through Bank Indonesia to finance projects in Indonesia. The details of these facilities are as follows:

Credit Facility	Purpose	Repayment Period
ADB Fish I	Finance government project in funding credit for fishery project	July 23, 1986 - August 15, 2000
ADB Fish II	Finance government project in funding credit for fishery project	December 19, 1991 - September 15, 2006
ADB Nescoco Plasma and Nescoco Inti	Finance government project in funding credit for plantation project	February 15, 1989 - September 15, 2008
ADB Agro Industry	Finance industrial sector	May 13, 1988 - September 15, 2002
Second Bapindo Project	Finance all industrial sectors which have high socio – economic value and carried out by private sector	November 1, 1990 - May 1, 2002

Credit Facility	Purpose	Repayment Period
Development Financing Loan Project	Finance industrial sector prioritizing manufacturing products to non-oil export, agrobased industry, employee-centred program and earning foreign exchange	July 15, 1993 - January 15, 2005

The ADB I credit facility bears annual interest at 11.4%.

For the ADB II credit facility, the variable interest rate is determined every six months based on the lower of:

- Average interest rate for the six (6) months ending three months before the interest payment period, for three-month Bank Indonesia Certificates; and,
- Average interest rate for the six (6) months ending three (3) months before the interest payment period, for three-month time deposits in five (5) state-owned banks.

The interest rate on ADB II facility shall not be lower than the annual interest rate charged by ADB to the Government plus 4%.

Availments on the ADB facilities are repayable within fifteen (15) years from the first drawdown (inclusive of a 4-year grace period for ADB I and a 3-year grace period for ADB II) and are repayable in twenty-two (22) semi-annual installments starting December 15, 1989 for ADB I and twenty-four (24) semi-annual installments starting March 15, 1995 for ADB II.

The interest rates on the ADB Nescoco Plasma and ADB Nescoco Inti facilities are 9.50% and 10.00%, respectively, of the outstanding facility.

The interest rate on the ADB Agro Industry is the interest rate charged by ADB to the Government plus 1.75% or depositors' interest rate less 5.00%, whichever is higher.

The interest rate on the Second Bapindo Project facility is 1.75% per annum above the interest rate charged by ADB to the Government or the interest rate for depositors less 5.00% per annum, whichever is higher.

The interest rate on the Development Finance Loan Project facility is based on the variable rate determined by Bank Indonesia every six (6) months based on the weighted average interest rate for depositors in a foreign exchange bank but not lower than the interest rate charged by ADB plus 1.75% per annum.

## (d) International Bank for Reconstruction and Development (IBRD)

This account represents credit facilities obtained from IBRD through Bank Indonesia to finance projects in Indonesia. The details of these facilities are as follows:

Credit Facility	Purpose	; Repayment Period
Industrial Restructuring Program (IRP)	Finance restructuring for investment projects for engineering, pulp, paper and textile sub-sector project	July 27, 1989 - October 1, 2003
Export Development Program II (EDP II)	Finance Export Development Project II	September 20, 1988 February 15, 2003
Small and Medium Industrial Program (SMIEP)	Finance manufacturing industrial project, agrobased and the related industry (including transportation and cold storage)	April 1, 1992 - October 1, 2003
Financial Sector Development Project (FSDP)	Finance Financial Sector Development Project	February 1, 1993 - February 1, 2008
Tree Crops Processing Project (TCPP)	Finance development of Palm-Oil Factory	February 23, 1989 - June 1, 2001
Agricultural Financing Project (AFP)	Finance production sector project and agriculture animal husbandry, fishery and forestry industries	June 1, 1995 - December 1, 2006
IBRD Loan No. 2277 V Project	Finance development project (specific development project)	August 1, 1985 - February 1, 2003

For IRP, EDP II and SMIEP credit facilities, the principal amount is repayable to the Government within fifteen (15) years inclusive of a 3-year grace period from the time the agreement becomes effective. The interest rate on the IRP, EDP II and SMIEP credit facilities is determined every six (6) months by Bank Indonesia and should not be lower than the interest rate charged by IBRD to the Government plus 1.75%.

The interest rate on FSDP credit facility is variable based on the past six-months average interest rate for three-month Bank Indonesia Certificates. The FSDP credit facility is repayable on March 15 and September 15 of every year, whichever is earlier from the date of agreement.

The interest rate for TCPP facilities is 10% per annum.

The interest rate on AFP facility is computed based on a variable interest rate for a period of six (6) months, at the lower of:

- Six-months average interest rate for three-month Bank Indonesia Certificates.
- Six-months average interest rate for three-month time deposits in five (5) state-owned banks.

The interest rate on AFP facility shall not be lower than the interest rate charged by IBRD to the Government plus 2%.

The interest rate on Loan No. 2277 V Project facility is based on the interest rate charged by IBRD to the Government subject to a maximum of 11%.

### (e) ASEAN Japan Development Fund - Overseas Economic Cooperation Fund (AJDF-OECF)

This account represents credit facilities obtained from AJDF-OECF through Bank Indonesia to finance projects in Indonesia. The details of these facilities are as follows:

Credit Facility	Purpose	Repayment Period
Pollution Abatement		
Equipment Program		
(PAE)	Purchase of equipment to prevent pollution	August 10, 1993 - August 10, 2003

The availments on the above AJDF-OECF facilities are repayable within twenty (20) years after the first drawdown (inclusive of a 5-year grace period), in thirty (30) semi-annual installments starting August 15, 1998 and ending on February 15, 2013.

The PAE facilities bear variable interest rate determined every six (6) months based on the prevailing average interest rate for the past six (6) months for three-month Bank Indonesia Certificates, less 5%.

#### (f) ASEAN Japan Development Fund - Export-Import Bank of Japan (AJDF-EBJ)

This account represents credit facility obtained from AJDF-EBJ through Bank Indonesia to finance investment projects and working capital requirements of small-scale industries. The credit facility which amounts to Rp 6,343 is repayable in twenty four (24) semi-annual installments within fifteen (15) years after the date of the first drawdown (inclusive of a 3-year grace period), with the first installment starting December 15, 1997.

This facility bears interest rate determined every six (6) months based on the prevailing average interest rate for the past six (6) months for three-month Bank Indonesia Certificates.

### (g) Islamic Development Bank (IDB)

This account represents credit facility from IDB through Bank Indonesia to finance several projects in Indonesia. The details of these facilities are as follows:

Credit Facility	Purpose	Repayment Period
$p_{i_1,i_2,i_3,i_4,i_4,i_4,i_4,i_4,i_4,i_4,i_4,i_4,i_4$		
IDB	Development of textile factory	August 22, 1991 - May 15, 2001

The IDB facility bears an administration fee at 11% per annum.

### Bank Indonesia

This account represents a loan arising from the conversion of Bank Indonesia Liquidity used to improve the capital structure of the former BBD, former BDN, former Bapindo and PT Bank Syariah Mandiri (a Subsidiary). The details of this facility as of December 31, 1999 are as follows:

Bank Repayment Period		,	Amount	Interest Rate			
rmer Bapindo	March 31, 1995 March 31, 2004	Rp	1,296,000	0% per annum			
rmer BDN	March 31, 1993 – March 31, 2000		740,059	6% per annum calculated quarterly by capping as follows: the first 5 years at 1% per annum the second 5 years at 3% per annum the third 5 years at 6% per annum the fourth 5 years at 14% per annum

and Development (IBRD)  (d) Asian Development Bank (ADB)  (e) ASEAN Japan Development Fund -  Overseas Economic Cooperation		161,556 55,871		210,708 136,701
Fund (AJDF-OECF)  (f) Nordic Investment Bank (NIB)		22		22 44,377
Total	Rp	677,418	Rp	614,180

## (a) Export-Import Bank of Japan (EBJ)

The EBJ I and EBJ II facilities are charged with administration fees based on the weighted average interest rate for debtor deposits of the participating state banks determined by Bank Indonesia every six (6) months, less 1%.

The EBJ III, EBJ IV and EBJ V facilities are charged with administration fees based on the floating interest rate determined every six (6) months based on the prevailing average interest rate for the past six (6) months for three-month Bank Indonesia Certificates, which should:

- Not be higher than the six-months average interest rate for three-month time deposits in five (5) state-owned banks and not be lower than the interest rate of Exim Bank of Japan to the Government loan plus 4% for EBJ III.
- Not be higher than the six-months average interest rate for three-month time deposits in five state-owned banks for EBJ IV.
- Be the lower of interest rate for the past six months of three-month Bank Indonesia Certificates and the six-months average interest rate for time deposits in five (5) state-owned banks for EBJ V.

### (b) ASEAN Japan Development Fund - Export Import Bank of Japan (AJDF-EBJ)

This facility is charged with an administration fee based on the six-months average interest rate for three-month Bank Indonesia Certificates.

## (c) International Bank for Reconstruction and Development (IBRD)

The AFP facility was charged with administration fee based on a variable interest rate determined every six (6) months based on the lower of the:

- Average interest rate for the past six (6) months of three-month Bank Indonesia Certificates.
- Average interest rate for the past six (6) months of three-month time deposits in five (5) stateowned banks.

The administration fee for the AFP facility should not be lower than the interest rate on loans charged by IBRD to the Government plus 2%.

The IRP and SMIEP facilities are charged with administration fee based on the higher of the interest rate on:

- The interest rate on credit charged by IBRD to the Government plus 1.75%.
- Weighted average interest rate on time deposits of participant banks.

The Bapindo V Project is charged with an administration fee based on the interest rate charged by IBRD to the Government subject to a maximum of 11%.

## (d) Asian Development Bank (ADB)

The Second Bapindo Project (SBP) is charged with an administration fee of 1.75% per annum above the interest rate charged by ADB to the Government or interest charged on loans to customers less 5% per annum whichever is higher.

The Development Finance Loan Project (DFLP) facility is charged with a variable administration fee determined by Bank Indonesia every six (6) months based on the weighted average interest rate on customer deposits in a Foreign Exchange Bank and should not be lower than the interest rate of ADB plus 1.75% per annum.

## (e) ASEAN Japan Development Fund - Overseas Economic Cooperation Fund (AJDF-OECF)

This facility is charged with an administration fee based on variable interest rate for the past six (6) months for three-month Bank Indonesia Certificates and is payable on April 15 and October 15 of every year from the disbursement of loans less 5%.

#### Others

The details of this account are as follows:

	. *	1999	1998

22. LOAN CAPITAL  This account consists of the following:	MANA PARA PARA PARA PARA PARA PARA PARA P	1999	ncolaborarea control di giune constante	1998	
Rupiah Conversion of Liquidity from Bank Indonesia (KLBI) Foreign currencies Subordinated Floating Rate Notes	Rp	1,755,000 958,500	Rp	1,755,000 1,083,375	
Total	Rp	2,713,500	Rp	2,838,375	

The conversion of liquidity from Bank Indonesia represents the conversion of fund borrowings from Bank Indonesia to former Bapindo with 0% interest rate based on the Subordinated Loan Agreements No. 28/SUG/UKU/PMK and No. 28/547/UKU/PMK dated November 6, 1995.

The loan capital in foreign currency represents a Subordinated Undated Floating Rate, Note (FRN) amounting to US\$ 135 with no fixed repayment date. The interest rate is calculated at 1.1% above sixmonths LIBOR.

## 23. STOCKHOLDER'S EQUITY (CAPITAL DEFICIENCY)

This account consists of:

		1999	1998		
Capital stock	Rp	4,251,000	Rp	4,000,000	
Additional paid-in capital		177,749,004	_	4	
Differences in foreign currency translation		15,587		90,592	
Deficit	(	175,072,070)	(	105,533,558)	
Net	Rp	6,943,521	Rp	101,442,962	

Based on notarial deed No. 31 of Sutjipto, S.H., dated October 2, 1998, the authorized capital of Bank Mandiri amounts to Rp 16,000,000 with a nominal value of Rp 1,000,000 (one million Rupiah) per share. The issued and fully paid capital, amounting to Rp 4.251 trillion and Rp 4 trillion, as of December 31, 1999 and 1998, respectively, is wholly-owned by the Republic of Indonesia.

The placement of the paid-up capital amounting to Rp 4 trillion by the Republic of Indonesia was carried out as follows:

- a. Cash payment through Bank Indonesia amounting to Rp 1,600,004.
- b. Placements in shares of stock recorded as investments in shares of the Merged Banks amounting to Rp 599,999 each or totaling Rp 2,399,996, through the transfer of shares of the Republic of Indonesia in each of the Merged Banks to Bank Mandiri, as resolved during the respective Extraordinary General Meetings of the Merged Banks. Based on the agreement ("inbreng") notarized by deed No. 9 of Sutjipto, S.H., dated October 2, 1998, Bank Mandiri and the Republic of Indonesia, agreed to transfer those shares (inbreng) as payment for new shares to be issued by Bank Mandiri.

Based on the amendments to the Articles of Association of Bank Mandiri covered by notarial deed No. 98 of Sutjipto, S.H., dated July 24, 1999, the stockholder resolved to increase the paid-up capital of Bank Mandiri from Rp 4,000,000 to Rp 4,251,000 to be entirely paid for by the Republic of Indonesia.

The additional paid-in capital mainly represents additional capital arising from the recapitalization program (see Note 4).

The State Minister for Investments and State-Owned Enterprises Development, in his letter No. S-510/M-PBUMN/1999 dated September 29, 1999, stated his approval to utilize the additional paid-in capital of the Republic of Indonesia in Bank Mandiri, as provided for under Government Regulation No. 52 of 1999, to eliminate the negative equity of Bank Mandiri, consisting of the negative equity of the Merged Banks as of July 31, 1999 and the losses incurred from the beginning of the merger until the end of 1999 (see Note 4). As of December 31, 1999, such approval has not yet been implemented pending further approval by the Government.

## 24. INTEREST AND INVESTMENT INCOME

Interest and investment income was derived from the following:

### 30. PENSION PLAN

Bank Mandiri has five (5) pension plans in the form of Employer Pension Plans as follows:

a. One employer defined contribution pension plan or the Bank Mandiri Pension Plan (DPPK-PPIP). The members are active employees of Bank Mandiri from August 1, 1999. The Bank Mandiri Pension Plan Regulation was legalized based on the decision letters of the Ministry of Finance of the Republic of Indonesia No. KEP/300/KM.017/1999 dated July 14, 1999 and Bank Mandiri's Director No. 004/KEP.DIR/1999 dated April 26, 1999. Up to December 31, 1999, pension contribution and old age benefits (THT) are 5% and 1% of the Gross Mandiri's Salary (GKM) and the employer contribution to finance the pension plan is 10% of the pension plan income.

Based on the other auditors' report dated March 7, 2000 concerning the status of the pension plan, total net assets under the Bank Mandiri Pension Plan was amounting to Rp 25,513 as of December 31, 1999.

b. Four employer defined benefit pension plans (DPPK-PPMP) derived from the respective pension plans of the Merged Banks, namely DPBM - one (former BBD), DPBM - two (former BDN), DPBM - three (former BankExim) and DPBM - four (former Bapindo). The regulations on the respective pension plans were legalized by the Minister of Finance in his decision letters No.KEP/394/KM.017/1999, No. KEP/395/KM.017/1999, No. KEP/396/KM.017/1999 and No. KEP/397/KM.017/1999 dated July 31, 1999. The assets of the respective pension plans were derived from the pension plan assets of the Merged Banks and if in the future there is a deficit, Bank Mandiri should cover it. The working period used as the basis for the computation of pension benefits represents the working period in the pension plan as of July 31, 1999. The basic salary used as the basis for the calculation of pension benefits is Active Employee Salary (GPA), which is principal salary multiplied by the index in the pension plan as of July 31, 1999.

The actuarial calculation of pension cost for the respective DPBM as of December 31, 1999 is as follows:

- DPBM one was calculated by PT Jasa Aktuaria Pensiun dan Asuransi, with surplus assets amounting to Rp 42.844 billion and funding ratio of 104.73%.
- DPBM two was calculated by PT Jasa Aktuaria Pensiun dan Asuransi, with surplus assets amounting to Rp 1.863 billion and funding ratio of 100.20%.
- DPBM three was calculated by PT Watson Wyatt Purbajaga dan Asuransi, with surplus assets amounting to Rp 68.721 billion.
- DPBM four was calculated by PT Jasa Aktuaria Praptasentosa Gunajasa, with surplus assets amounting to Rp 49.804 billion.

### 31. RELATED PARTY TRANSACTIONS

In the ordinary course of its business, Bank Mandiri engages in transactions with related parties, among others:

- a) Loans (see Note 10).
- b) Asset sale and purchase transactions with PT Pengelola Investama Mandiri (see Note 11).
- c) Asset sale and purchase transactions with PT Pengelola Harta Tetap Mandiri (see Note 12).
- d) Demand, savings and time deposits (see Notes 14, 15 and 16).

### 32. NET OPEN POSITION

In 1999, based on Bank Indonesia decision letter No. 31/178/KEP/DIR dated December 31, 1998 effective on March 31, 1999, Bank Mandiri should gradually adjust its Net Open Position, during the transitional period until June 30, 2000 (including all domestic and overseas branches) to attain the required maximum of 20% of capital. Net Open Position is the accumulation of absolute amounts of the net differences between assets and liabilities denominated in each foreign currency, in the balance sheet and administrative accounts.

In 1998, based on Bank Indonesia's decision letter No. 24/50/KEP/DIR dated November 20, 1991, Bank Mandiri was required to maintain its total Net Open Position (including all domestic branches) at a maximum of 20% of capital. Net Open Position represents the net difference between assets and liabilities denominated in foreign currencies in the balance sheet and administrative accounts.

Bank Mandiri's Net Open Position as of December 31, 1999, not yet in compliance with the prevailing Bank Indonesia regulation regarding the required maximum Net Open Position of 20% of the bank's capital, is as follows:

	Net Open Position (Absolute Amount)	
United Stated Dollar Rp 119,658,322 *) Rp 122,291,035 Rp	2,632,713	
Hong Kong Dollar 1,351,422 151,053	1,200,369	
Austrian Schilling 5,964 593,676	587,712	
Euro 389,744 67,809	321,935	
French Franc 129,533 338,523	208,990	
Dutch Guilder 645,170 793,161	147,991	
Malaysian Ringgit 105,259 250,333	145,074	
Singapore Dollar 413,466 477,682	64,216	
Japanese Yen 1,990,057 2,048,980	58,923	
Canadian Dollar 58,435 29,273	29,162	
Others (each below Rp 20,000) 1,835,866	6,034	
Total Rp	5,403,119	

<sup>\*)</sup> The above assets include hedge bonds amounting to Rp 26.640 trillion.

### 33. FOREIGN CURRENCY TRANSACTIONS

The outstanding receivables and payables arising from foreign currency transactions consist of the following:

	1999		1998	
Receivables Forward foreign currency bought Unrealized spot foreign currencies bought	Rp	253,791 2,256	Rp	1,626,740 471,668

Total			Rp	606,955	

The period for foreign currency transactions ranged from 6 to 1,002 days in 1999.

## 34. SIGNIFICANT AGREEMENTS, COMMITMENT AND CONTINGENCIES

### a. Management Contract

On April 8, 2000, a Management Contract was signed between the Government of the Republic of Indonesia and Bank Mandiri in connection with the recapitalization of Bank Mandiri as described in Note 4. The Management Contract sets forth, among others, the following:

- 1. Obligations to be fulfilled by Bank Mandiri, among others:
  - The Government Bonds can only be used by Bank Mandiri to settle liabilities and cannot be used to acquire assets, except for Government Bonds classified as trading based on the prevailing regulations.
  - Settlement of unreconciled/open items and reconciliation of interbranch transactions derived from the Merged Banks.

- Special audit of high risk and material unreconciled/open items.
- Implementation of an automated monitoring system over the use of funds and liquidity of Bank Mandiri not later than June 30, 2000.
- Bank Mandiri agreed to improve the Net Open Position based on the prevailing regulation and prepare a plan to acquire assets and United States Dollar currencies.
- Bank Mandiri and the Minister of Finance agreed to undertake actions needed to accelerate the privatization process of Bank Mandiri which is equity in nature and which has to be completed not later than March 31, 2001.
- 2. Management and Performance of Bank Mandiri, among others:
  - The Boards of Directors and Commissioners are required to perform their jobs earnestly to perform actions thoroughly as required in the Business Plan, Performance Plan and Performance Milestones.
  - The Compliance Director is required to undertake actions needed to fully comply with Bank Indonesia Regulations, the prevailing laws, agreements, and commitments with Bank Indonesia and monitor the success of the implementation of the Bank Recapitalization Program based on the agreed Business Plan, without prejudice to the responsibilities of the Boards of Directors and Commissioners of Bank Mandiri. The results of this job should be submitted quarterly to the Minister of Finance not later than two (2) weeks after the end of each quarter.
- 3. Corporate Governance for Bank Mandiri, among others:
  - The Governance of Bank Mandiri is conducted by its Boards of Directors and Commissioners in accordance with the Articles of Association of Bank Mandiri and the prevailing laws.
  - The members of the Boards of Directors and Commissioners must not have conflict of interests in the decision making process involved in governing Bank Mandiri.

## b. Government Bond Purchase Agreement

In December 1999, Bank Mandiri entered into an agreement with Bank Indonesia, whereby Bank Mandiri is required to buy Rp 14 trillion worth of Government Bonds, consisting of Rp 7 trillion fixed rate bonds and Rp 7 trillion variable rate bonds, on June 28, 2000.

### c. Earning Assets Transfer Agreement

In 1999, Bank Mandiri entered into an Earning Assets Transfer Agreement with IBRA. Under the agreement, Bank Mandiri agreed to transfer to IBRA its loss category earning assets for nil consideration.

### d. Agreements on Channeling loans

Bank Mandiri entered into several channeling loans agreement to channel loans in various foreign currencies, loans from Export Import Bank of Japan, ASEAN Japan Development Fund, Overseas Economic Cooperation Fund, International Bank for Reconstruction and Development, Nordiska Investeringsbanken, Kreditanstalt Fur Wiederaufbau, Sumitomo, US AID, Barclays Bank, Bank of China, CN Lyonnais, Unibank, Bank of Austria, Ryobhin Hong Kong, Export Finance and Insurance Cooperation - Australia, Mitsubishi Corporation, Chartered West LB, Banque Indosuez, Hitachi Zosen, NEC Corporation, Banque Francais du Comm, Exim Bank of US, and Banque Paribas for financing projects in Indonesia.

Bank Mandiri's responsibilities under the above arrangement include, among others, the payment of principal, interest and other charges and the preparation sufficient loan recording. As compensation, Bank Mandiri shall receive an annual administration fee which varies from 0.15% - 0.25% of the loan balances.

The outstanding balances of channeling loans as of December 31, 1999, summarized by economic sector are as follows:

Electricity, gas and water	Rp	4,493,167
Transportation, warehouse and communication	-	3,469,424
Manufacturing		1,166,737
Agriculture		950,890
Mining		28,742
Construction		27,869
Others		96,423
Total	Rp	10,233,252

#### e. Contingent Liabilities

As of December 31,1999, Bank Mandiri has provided an allowance of Rp 449.2 billion (included as part of "Other Liabilities") for several pending lawsuits filed against the Bank Mandiri, which Bank Mandiri's internal legal counsel believes will be decided in favor of the complainants. These lawsuits mainly relate to guarantees issued by the Merged Banks which Bank Mandiri is obligated to fulfill. Management believes that the allowance is adequate to cover possible losses arising from such lawsuits.

#### 35. ADVERSE ECONOMIC CONDITIONS

In 1998, many Asia Pacific countries, including Indonesia, have experienced adverse economic conditions mainly resulting from currency depreciation in the region. In Indonesia, these economic conditions which have been characterized by volatile foreign currency exchange rates, high interest rates, tight liquidity and lack of public confidence in the country's banking system have significantly affected the banking services sector, including the operations of Bank Mandiri and its Subsidiaries. The adverse economic conditions have also involved declining prices in shares listed on the Indonesian stock exchanges, tightening of available credit and reduced economic activity. Also, the liquidation and suspension of operations of several domestic banks in Indonesia have caused deterioration of public confidence in the country's banking system, placing more pressure on the liquidity and survival of the banking sector.

To regain public confidence in the banking system, the Government has guaranteed certain obligations of domestic banks as discussed in Note 36.

The adverse economic conditions caused uncertainty with respect to the ability of the customers of Bank Mandiri and its Subsidiaries to fulfill their obligations when they mature, thereby significantly increasing credit risk inherent in their lending portfolio. Such economic conditions also affected Bank Mandiri's and its Subsidiaries' cost of funds.

In the middle of 1999 until the date of the auditors' report, the economic conditions in Indonesia showed signs of recovery, such as the decline in interest and inflation rates. In 1999, the banking sector has started to obtain recapitalization from the Indonesian Government, and has transferred non-performing assets to IBRA, thereby reducing the provision for losses although still posting negative interest margins for the years ended December 31, 1999 (and 1998).

In March 1999, Bank Mandiri and its Subsidiaries transferred and assigned their rights and ownership over non-performing loans to IBRA based on the Asset Transfer Agreement discussed in Note 34c.

In response to the effects of the adverse economic conditions on the banking sector, on December 31, 1998, the Government issued Regulation No. 84 of 1998 concerning the Recapitalization of Commercial Banks. By virture of the Joint Decrees No. 53/KMK.017/1999 and No. 31/12/KEP/GBI dated February 8, 1999 of the Ministry of Finance and the Governor of Bank Indonesia, concerning the implementation of the recapitalization program for commercial banks and the decision letter of the Steering Committee for the Recapitalization Program of Commercial Banks dated March 12, 1999, Bank Mandiri was included in the recapitalization program. In addition, the implementation of the recapitalization program is one of the commitments of the Government in its Letters of Intent (LoI) to the International Monetary Fund (IMF).

On October 12 and December 28, 1999, the Government and Bank Mandiri signed an Interim Recapitalization Agreement (see Note 34a) and after such signing, Government issued Government Bonds amounting to Rp 103 trillion and Rp 75 trillion, respectively (see Note 4). Therefore, total Government Bonds received by Bank Mandiri amounted to Rp 178 trillion.

In connection with the above-mentioned recapitalization agreements, Bank Mandiri and its Subsidiaries have prepared a business plan, which sets forth among others:

- a. Restructuring of non-performing loans for debtors with prospects and transferring non-prospective loans classified as loss to IBRA.
- b. Settlement of loans granted to related parties which have exceeded the legal lending limit.
- c. Settlement of Net Open Position which has exceeded the limit.
- d. Overcoming of liquidity risk by rolling over offshore borrowings, increasing retail funding and maintaining major customers by offering competitive interest rates and services.
- e. Efficiency improvement measures, as follows:
  - a. Rationalizing employees.
  - b. Optimizing office network and extending retail credits.
  - c. Redesigning branch operations.
  - d. Optimizing the usage of the existing fixed assets.
  - e. Controlling overhead costs through monitoring mechanisms.
  - f. Designing an effective organization structure.
- f. Improvement of product and service quality to meet customers' needs.
- g. Improvement of the quality of human resources by prioritizing training and education.
- h. Transferring the management of non-prospective Subsidiaries to PT Pengelola Investama Mandiri, a related party, for resale and restructuring of Subsidiaries with prospects.

Further, on April 8, 2000, Bank Mandiri and the Indonesian Government entered into a Management Contract. The Management Contract provides for, among others, the requirements and milestones to be fulfilled by Bank Mandiri in accordance with its Business Plan and the Government's recapitalization (see Note 37e).

The accompanying consolidated financial statements as of December 31, 1999 and for the five months then ended include the effects of the adverse economic conditions to the extent they can be determined and estimated. Recovery of the economy depends on the monetary, fiscal, and other measures that have been and will be undertaken by the Indonesian Government, actions which are beyond the control of Bank Mandiri and its Subsidiaries. It is not possible to determine the future effects of the adverse economic conditions on Bank Mandiri's and its Subsidiaries' earnings and realization of their earning assets, including the effects from their customers, creditors and stockholder.

## 36. GOVERNMENT GUARANTEE OVER OBLIGATIONS OF LOCALLY INCORPORATED BANKS

Based on the Decree of the Minister of Finance No. 26/KMK.017/1998 dated January 28, 1998, the Government is guaranteeing certain obligations of locally incorporated banks namely demand deposits, savings, time deposits and deposit on call, bonds, marketable securities, interbank placements, fund borrowings, swaps/hedges/futures, derivative and contingent liabilities such as bank guarantees, standby letters of credit, performance bonds and other liabilities excluded in this decree, such as subordinated loans and due to directors, commissioners and related parties. This guarantee is valid for two (2) years from January 26, 1998 to January 31, 2000. Based on Joint Decrees of the Directors of Bank Indonesia and Head of IBRA No. 32/46/KEP/DIR and No. 181/BPPN/0599 dated May 15, 1999, the guarantee period is automatically extended, unless otherwise decided upon by IBRA within six months from the maturity of this guarantee.

## 37. SUBSEQUENT EVENTS

## a. Trading of Government Bonds

Based on Bank Indonesia Letter No. 2115/DPM dated January 26, 2000 concerning the "Government Bonds Trading Agreement", Bank Mandiri may already trade Government Bonds amounting to Rp 675 billion effective on February 1, 2000 (see Note 8).

### b. Net Open Position

The Net Open Position of Bank Mandiri as of April 28, 2000 (unaudited) is as follows:

	SMALL STREET,	Rupiah Equivalent					
	Ad Ad	Assets and Administrative Asset Accounts		Liabilities and Administrative Liability Accounts		Net Open Position (Absolute Amount)	
Hong Kong Dollar United States Dollar French Franc Japanese Yen	Rp	2,025,387 *) 131,735,091 151,351 2,119,785	Rp	1,032,646 130,787,258 334,045 2,301,074	Rp	992,741 947,833 182,694 181,289	

## PT BANK MANDIRI (PERSERO) AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Amounts in Millions, Except as Otherwise Stated)

	Rupiah Equivalent					
	Assets and Administrative Asset Accounts		Liabilities and Administrative Liability Accounts		Net Open Position (Absolute Amount)	
Spanish Peso	Rp	238,742	Rp	71,918	Rp	166,824
Dutch Guilder	_	584,636	•	722,435		137,799
Malaysian Ringgit		149,845		249,973		100,128
Euro		354,202		278,346		75,856
Singapore Dollar		689,483		618,380		71,103
British Pound Sterling		756,424		705,140		51,284
Canadian Dollar		68,291		32,420		35,871
Deutsche Mark		1,270,062		1,292,908		22,846
Others (each below Rp 20,000)		465,093		427,924		37,169
Total .					Rp	3,003,437

<sup>\*)</sup> The above assets include hedge bonds amounting to Rp 24.420 trillion.

As of April 28, 2000, the percentage of the Bank's Net Open Position (NOP) to its capital based on Bank Mandiri's report to Bank Indonesia is 34.15% (unaudited), which is not in compliance with the prevailing Bank Indonesia Regulation on NOP which should be a maximum of 20% of each bank's capital. However, the regulation states that banks are given a transitional period to gradually adjust their Net Open Position until June 30, 2000 (see Note 32).

#### c. Legal Lending Limit (LLL)

Based on Bank Mandiri's report on LLL to Bank Indonesia as of April 28, 2000 (unaudited), Bank Mandiri did not breach the LLL as of said date.

## d. First Quarter 2000 Performance (Unaudited)

A summary of the performance of Bank Mandiri for the three months ended March 31, 2000 is as follows:

Financial Data	(in billions of Rupiah)		
Income after tax Total assets Net equity	Rp	455 216,503 4,741	
Restructured loans		24,000	
Financial Ratios	Pe	ercentage	
Ratio of Return on Assets (annualized)		2.68%	
Ratio of Return on Equity (annualized)		25.45	
Capital Adequacy Ratio (Core and Supplementary Capital)		13.64	

The above performance measures were calculated after considering the return of Government Bonds amounting to Rp 2.657 trillion (see Note 4).

## e. Management Contract

On April 8, 2000, Bank Mandiri and the Indonesian Government entered into a Management Contract. The Management Contract provides for, among others, the requirements and milestones to be fulfilled by Bank Mandiri in accordance with its Business Plan.

Under the Management Contract, Bank Mandiri is required, among others, to return the surplus of Rp 2.657 trillion in Government Bonds or equivalent to 2,657,000 (two million six hundred fifty seven thousand) units, to the Minister of Finance on April 10, 2000, the effective date of the Management Contract (see Notes 4 and 34a).

## 38. RECLASSIFICATION OF ACCOUNTS

Certain accounts in the consolidated financial statements for seven months ended as of July 31, 1999 and for the year ended as of December 31, 1998 have been reclassified to conform with the presentation of accounts in the 1999 consolidated financial statements, with the details of the significant reclassifications made as follows:

Description	Amount	
July 31, 1999	er en 1935 (Australian 1938) blake en 1939	The second secon
Other Operating Income - Others offset against Other Operating Expenses - Others	Rp	10,307,242
Other Operating Income - Others reclassified to Other Operating Income - Gain on Foreign Exchange - Net Other Operating Expense - Others reclassified to Other Operating Expenses - Salaries and Employee Benefits		1,011,167
December 31, 1998		715,897
Other Operating Income - Gain on Foreign Exchange - Net offset against Other Operating Expenses - Others		68,424,764
Fund Borrowings offset against Loans		6,008,261

# PT BANK MANDIRI (PERSERO) AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued) (Amounts in Millions, Except as Otherwise Stated)

Description	Amount	
Other assets - Allowance for Possible Losses on Administrative Accounts with Lending - Related Risk reclassified to Other Liabilities - Allowance for Possible Losses on Administrative		
Accounts with Lending-Related Risk	Rp	2,327,449
Other Current Liabilities reclassified to Fund Borrowings		1,797,815
Other Operating Income - Gain on Foreign Exchange - Net reclassified to Other Operating Income - Others		197,250
Other Operational Expenses - General and Administrative reclassified to Other Operating Expenses - Others		143,844
