

DIVIDEND POLICY AND DISTRIBUTION

Dividend Policy

Bank Mandiri implements its dividend distribution policy in accordance with Law No. 40 of 2007 concerning Limited Liability Companies and the Bank's Articles of Association. Under the Law, the entire net profit after allocation for reserves may be distributed to shareholders as dividends, unless otherwise determined by the General Meeting of Shareholders (GMS).

Bank Mandiri distributes dividends once a year following the Annual General Meeting of Shareholders (AGMS), which has the authority to determine and approve dividend distribution. The Bank's dividend policy is to maintain a dividend payout ratio of approximately 45% or more of annual net profit, unless otherwise decided by the AGMS based on various considerations relating to the performance of the relevant year. In this regard, Bank Mandiri considers several important factors, including the Bank's financial health, capital adequacy level, and funding requirements for future business expansion, without prejudice to the authority of the AGMS to determine otherwise in accordance with the provisions of the Company's Articles of Association.

In addition, dividend payments derived from net profit are carried out in accordance with the applicable laws and regulations in Indonesia. Dividends (if any) are paid in cash in Rupiah and in compliance with applicable stock exchange regulations to ensure timely payment. Bank Mandiri does not have any restrictions (negative covenants) imposed by third parties that would limit dividend distribution in a manner detrimental to the rights of public shareholders.
