Policies, Announcements and Dividend Payments

Dividend Policy

The distribution of dividends by Bank Mandiri is done once a year through the process of determining and approval of the Shareholders at the Annual General Meeting of Shareholders (AGMS). Bank Mandiri has a policy to distribute dividends to shareholders while maintaining a dividend payout ratio of around 50% of net income annually, unless the AGMS states otherwise depending on various considerations related to the performance of the year concerned. Some of these factors include the level of financial soundness of Bank Mandiri, the level of capital adequacy, the need for Bank Mandiri funds for further business expansion, without reducing the right of the AGMS of Bank Mandiri to determine in accordance with the provisions of the Company’s Articles of Association.

Bank Mandiri will only pay dividends from net profit under Indonesian law and will pay dividends (if any) in cash in Rupiah and continue to comply with applicable regulations on the stock exchange by making timely payments. Bank Mandiri has no restrictions (negative covenants) in connection with restrictions on third parties in the context of dividend distribution that can harm the rights of public shareholders.

Announcement and Dividend Payout

Dividend distribution is carried out based on the GMS Decision as described below
